

CHARGE MAY BE SCREENING REAL VIEW OF PLOT

Sought to Hold Suspects Until Entire Plot Has Been Revealed

OPERATIONS MAY EXTEND OVER THE WHOLE NATION

Philadelphia's Mayor Asks Navy Department to Remove Ships From Yards

(Associated Press Telegram) Philadelphia, March 13.—Further developments in the alleged plot to smuggle chronometers ashore from the German commerce raiders Kronprinz Wilhelm and Prinz Eitel Friedrich, interned at the Philadelphia navy yard, were expected today. In addition to the five persons, including one woman, already under arrest, as the result of the investigation being conducted by agents of the department of justice, it was reported that a number of others would be taken into custody within 24 hours. Federal agents working on the investigation refused either to confirm or deny these reports. They admitted, however, that the smuggling charge is a subterfuge to hold the alleged principals until the entire plot, which they say has been hatched, can be revealed. It is said unofficially that a violation of the neutrality laws may be involved and that the plot may have nationwide ramifications.

The 19 chronometers said to have been smuggled from the ships and which are believed to be of vital importance in the investigation, went yesterday to an expert clock-maker for examination. Prior to their delivery they had been treated to an acid bath to ascertain if the dials contained any secret cipher messages or to bring out any symbols that might have been traced on their faces in invisible ink. The examination by the clockmaker was expected in an effort to learn whether there had been an attempt to tamper with the works and if so to determine what it indicated. Federal agents said the chronometers could be used as time fuses to explode bombs which might be secreted in the vessels for the purpose of destroying them in case of war.

Orders authorizing a search of the interned raiders were expected from Washington today. Mayor Smith yesterday made a personal appeal to Secretary Daniels of the navy department for the removal of the two ships on the ground that they constitute a menace to the safety of the city. He was assured that every precaution was being taken by the authorities and that the transfer of the German crews already was under consideration. It is said that the place for them was being sought.

The investigation yesterday, as far as it was permitted to be made public, centered to a great extent around Adelbert K. Fischer and his wife, two of the principals arrested in connection with the smuggling plot. It was learned that the Schutt & Koerting company of which Fischer is president, is a branch of a large German marine engineering (Continued on Page 2, Col. 6)

COURT HOLDS THAW INSANE; CAN'T BE TAKEN TO NEW YORK

Philadelphia, March 13.—Harry K. Thaw was today adjudged a lunatic by the common pleas court of this city and under the law cannot be taken to New York on requisition to stand trial on charges of assaulting Frederick Gump, Jr., a high school student of Kansas City, Mo. Thaw will be kept in St. Mary's Hospital here pending his removal to a Pennsylvania asylum.

The court's action was based on the report presented today by a lunacy commission which yesterday took the testimony of Thaw and his mother.

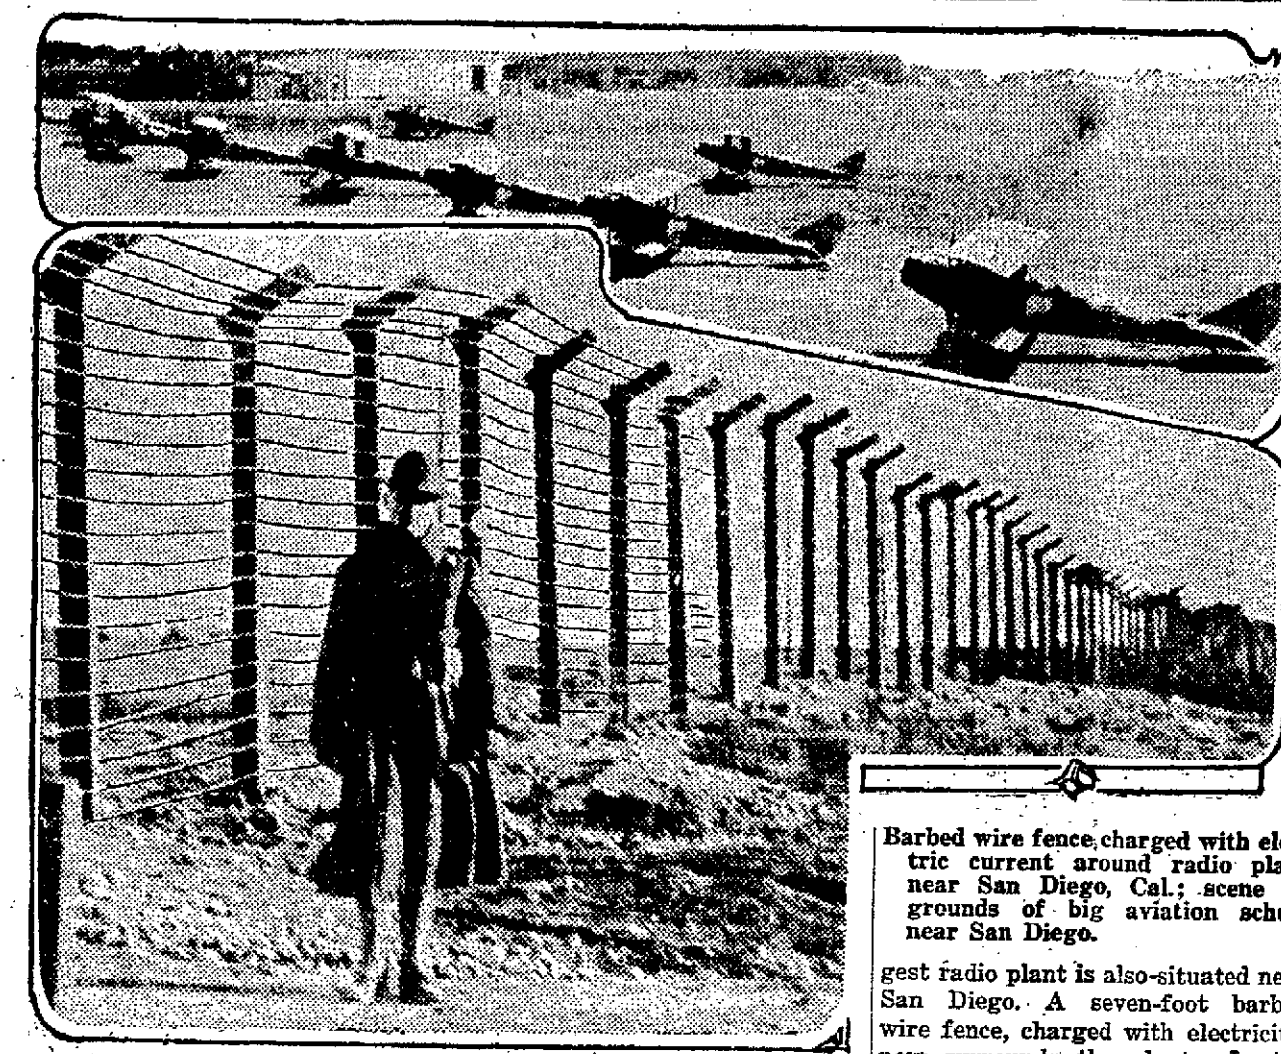

NAVY DEPARTMENT BUYS 16 DIRIGIBLE AIRSHIPS

Washington, March 13.—Purchase of 16 nonrigid dirigible airships for coast and harbor patrol work at a total cost of \$449,250 was announced yesterday by the navy department. The Curtis Aeroplane Company of Buffalo, N. Y., was awarded three for \$122,250 the Connecticut Aircraft Company, New Haven, two for \$34,000; the Goodyear Tire and Rubber Company, Akron, O., nine for \$360,000, and the B. F. Goodrich Company of Akron, two for \$33,000. Deliveries will begin within 120 days.

FLOOD AT PITTSBURGH

(Associated Press Telegram) Pittsburgh, March 13.—The flood in the rivers here reached its crest at 7 o'clock this morning, when the gauge at the point registered 23 feet, half a foot above the flood stage. Lower sections of the city are inundated, but reports indicated that the property damage was small.

PREPAREDNESS IS THE WATCHWORD ON THE PACIFIC COAST

Barbed wire fence, charged with electric current around radio plant near San Diego, Cal.; scene on grounds of big aviation school near San Diego.

Uncle Sam has not limited his preparedness activities to the Atlantic coast. Near San Diego, California, are shown lined up on the ground of the aviation field. America's biggest aviation school. Machines used by aviators at the instruction post.

Don't Monkey With Fallen Wires, Say Telephone Men

"Newark people for the next few hours should be careful about wires found down on the streets," said Manager Moore of the Bell telephone company this afternoon. "Such wires are likely to be heavily charged with electricity and are extremely dangerous even to those experienced in handling them. The safest way is to avoid coming in contact with such wires."

Linemen from both telephone companies devoted their attention today to the task of clearing their lines from dangerous contacts with high tension lines.

The danger will continue until the present ice and sleet gives way to warmer weather.

Less Than One-Third of Voters Cast Ballots on Proposal for Charter

It is doubtful if one-third of the qualified voters of the city took advantage of the opportunity today of voting for or against the proposition to change the form of government by the adoption of a charter. There has not been a great deal of interest taken in the election, and the miserable weather kept many away from the polls.

At noon in several of the larger precincts hardly 10 per cent of the vote was in. It is understood that in a couple of West Newark pre-

dicts the vote will be fairly large but by no means normal. The saloons were all closed the same as upon a general election day. The voter had little difficulty in casting his ballot as the question to be voted upon was plainly stated and the words "Yes" and "No" were very prominent. The names of seventeen men, 15 of whom would form a charter commission, followed in the same column. The result of the election should be known, easily by 3 o'clock this evening.

GOVERNOR JOHNSON WANTS A PART IN SPECIAL SESSION

Sacramento, Calif., March 13.—Governor Hiram W. Johnson, of California, in announcing his resignation as governor of California yesterday, issued the following statement, outlining his reasons for his action:

"I have had in mind but one thought—my obligation and my duty to the people of California, who, by overwhelming majority, have expressed confidence in me, and who have treated me with a generosity seldom accorded to any man in public life. Our nation now confronts a great international crisis in which California should play a due part."

"The extra session of congress renders it imperative that every representative should lend his presence and his aid in this crisis."

CIVILIAN RIFLE CLUBS HIGHER THAN CADET CORPS

Washington, March 13.—Standing of the leading clubs in each of the four rifle shooting leagues competing under the auspices of the national Rifle Association of America was announced today showing the aggregate score at the end of the sixth weeks' matches as follows:

Civilian Clubs—Peters' Rifle and Revolver club 5,959. Park club 5,940. Quinpiac Rifle club 5,939. College club, Michigan Agricultural College 5,744. Wes Virginia University 5,598. Notre Dame, Indiana University 5,558. High schools, Iowa High school 5,633. McKinley Manual Training school 5,543; Burlington Iowa High School 5,198.

Military schools: New York Academy 5,474. Tennessee Military Institute 5,436. St. John's Military 5,386.

RAIN AND SLEET CRIPPLE SERVICE OF INTERURBAN

Ice Covered Wires Cause Trouble For Telephones and Telegraph

STREET CARS MAINTAIN IRREGULAR SCHEDULE

Trees and Wires Fall From Weight of Ice and Rain

After "fifty-seven varieties" this winter another brand of weather was wished on Newark today and everything was off schedule and behind time, even the town clock lost fifteen or twenty minutes during the morning, and the street cars were behind in run on a hit and miss schedule.

Shortly after midnight a rain and sleet storm broke, and the wind blew a swift gale, lashing the snow and sleet, until the town was wrapped in ice. A heavy down pour of rain continued throughout the morning freezing as it fell, with the result that wires became too heavy to hold, and telephone, telegraph and street car service was demoralized.

The streets were a glare of ice, and as the coat of ice became heavier the limbs of the trees gave way, and in falling broke wires adding to the troubles of the various companies. The Ohio Electric company was making every effort to continue service and interurban cars between half an hour and an hour late. The first cars got in from Columbus about half an hour off schedule and the breaking of wires west during the morning shut off the power.

The city cars were experiencing great difficulty in running, in many instances, the cars would have to back half a square to make another try, when stuck.

The six and seven o'clock Granville car arrived all right, but a broken trolley at Showman's delayed the next car until 10 o'clock. As it became warmer near noon, and the (Continued on Page 2, Col. 5.)

COLOMBIA TO GET 25 MILLIONS FOR CANAL CONCESSION

(Associated Press Telegram) Washington, March 13.—The senate foreign relations committee today approved in modified form the treaty with Colombia by which the United States will pay that republic \$25,000,000 for the partition Panama. It will put the measure to a vote at the special session of the senate.

ONE AMERICAN ON LINER FOLIO SUNK BY A SUBMARINE

(Associated Press Telegram) Washington, March 13.—The sinking of the Cunard liner Folio with one American aboard was reported to the state department today in a preliminary dispatch from Consul Frost at Queenstown.

UNION LABOR IS QUICK TO OFFER SERVICE TO U. S.

Leaders Hope That Peace May Be Maintained But is Ever Ready

CONFERENCE AT CAPITAL PLANS PART IN DEFENSE

Sets Forth Demands Which Labor Deems Necessary to Guard Workers

(Associated Press Telegram) Washington, March 13.—Organized labor of the United States will support the government in peace or war. This is labor's attitude as set forth in a declaration of principles adopted unanimously at a conference here yesterday of its representatives called to determine and announce the part it would claim in national defense plans.

While expressing the earnest hope that peace may be maintained, it was declared that, should the United States be drawn into the war, labor is ready to offer its services to the country "in every field of activity."

The declaration of principles, drawn up by the executive council of the American Federation of Labor also sets forth demands which labor holds to be fundamentals in safeguarding the rights of workers in war and in peace. These demands are:

That industrial service should be deemed equally meritorious as military service; that service should conform to trade union standards and that organized labor should be represented on all agencies determining and administering policies of national defense and controlling public utility.

Formal proffer of labor's services probably will be made to President Wilson by Samuel Gompers, president of the American Federation of Labor, who also is a member of the national defense council. Copies of the declaration of principles will be sent to organized workers throughout the country.

The conference, called and presided over by Mr. Gompers, was attended by more than 100 delegates from national and international trade unions affiliated with the federation and five unaffiliated organizations, including the big railroad brotherhoods and representing about 3,000,000 workers.

TOLEDO MAY STOP PACIFIST MEETINGS IN CITY BUILDING

(Associated Press Telegram) Toledo, March 13.—City council in session last night received and referred to committee, a resolution which would bar pacifists from speaking in Memorial hall, a municipal structure. The proposed meeting in which Prof. Scott Nearing of the Toledo University is a prominent factor is scheduled for Wednesday night. The resolution was presented by a Polish alderman.

COAL PRICES MUST COME DOWN SAYS U. S. COMMISSION

(Associated Press Telegram) Washington, March 13.—The federal trade commission today notified the country's leading anthracite coal producers that any failure to grant the usual spring reductions cannot be justified by claims of increased cost of production. The commission has heard the notice says, that producers intend either to withdraw or reduce the regular seasonal discounts on the ground of increased mining costs.

In its inquiry into the cost of mining anthracite, the report on which soon will be issued, the commission has obtained detailed information on the costs of companies which mined in 1916 about 76 per cent of the total production of coal.

This information, says the commission, "obtained directly from records of the companies referred to, indicates no increase in average cost in the last four months of 1916, and further indicates an actual decrease of cost in the cases of some of the companies whose cost of production is high."

GERMANY'S SOLDIERS AT NAMUR ARE IMPRISONED FOR INSUBORDINATION

(Associated Press Telegram) Amsterdam, via London, March 13.—Serious disturbances among the German troops in the vicinity of Namur and Huy are reported by the Telegraph. The paper says that only fragmentary reports of the troubles have reached Holland but it is known that such large numbers

Complete Tie-Up Of Freight Lines Will Be Starter

Progressive Strike Is Planned by Brotherhoods Starting Saturday Night Unless Agreement Is Reached at Conference in New York

PASSENGER TRAINMEN WILL FOLLOW WEDNESDAY

Forty Thousand Men Involved In Order Issued For Saturday and All Eastern Railroads Are Concerned—Strike Will Spread to Other Lines Unless Agreement Is Reached—Boston Brotherhood Leader Denies Order Is Issued—Railroad Men Meet

(Associated Press Telegram) New York, March 13.—Information received by the national conference committee, composed of managers of the great railway systems, and made public by that body today, indicated that the four employees' brotherhoods have completed arrangements for a progressive series of strikes to begin at 6 o'clock eastern time on Saturday night if the conference on the eight hour question held here Thursday fails to reach a satisfactory agreement.

The proposed strike program, according to this information is as follows: Saturday 6 p. m.—call out all trainmen in freight service on the New York Central, Baltimore and Ohio, Erie, Atlantic Coast Line, Southern Railway, Louisville and Nashville, and Seaboard Air Line. Such an order would involve 40,000 men.

Monday, March 19, 6 p. m.—call out the freight trainmen on the Lehigh Valley, Lackawanna, Jersey Central, Pennsylvania, Long Island, Maine Central, Delaware and Hudson, Reading, and all other roads in the southeastern territory or extending to New York.

Tuesday, March 20, 6 p. m.—call out all the freight trainmen in the Northwestern group including the Hall roads and all those centering at Chicago.

Wednesday, March 21, 6 p. m.—If railroads still refuse to grant the men's terms, extend the strike to all other freight trainmen and call out the passenger trainmen on every road in the country.

NO STRIKE ORDERS.

(Associated Press Telegram)

Boston, March 13.—Local chairmen of the railroad brotherhoods said that they had received no strike orders up to an early hour today and that they had not been notified that the national officers of the four brotherhoods were planning a general strike.

"If any action of this kind was proposed I am sure that we would have heard of it," said Z. J. Blake, chairman of the Brotherhood of Locomotive Engineers and Firemen of the Boston and Maine system.

RAILROAD MEN MEET.

(Associated Press Telegram)

Washington, March 13.—Local railroad leaders from the southeast met here today to discuss the rumored demand for an eight hour day to be presented to the railroads Thursday by chiefs of the four brotherhoods, and the advisability of calling an immediate general railway strike if the demand is refused. Next Saturday was the time mentioned frequently as having been proposed for the strike, but national officials of the brotherhoods would neither confirm nor deny the report. They said the question of a strike would not be determined until word came from other sectional meetings of railroad labor men to be held in other cities today and tomorrow.

About 200 men were expected to attend the meeting here today. The railroad brotherhood on

March 7 wrote to President Wilson, it became known today, formally notifying him of the conference with the railroad representatives scheduled for March 15. In this letter the brotherhood leaders declared they were "hopeful of making a satisfactory adjustment" of questions pending with the railroads.

The brotherhood representatives also informed President Wilson that if while they were negotiating with the railroads the nation became involved in war, they would co-operate to the fullest extent with the government.

Neither the President nor Secretary Wilson of the department of labor have been officially informed today regarding the intentions of the railroad brotherhoods to strike unless satisfactory arrangement is made Thursday. Investigation has been begun however.

WON'T RECOMMEND STRIKE.

(Associated Press Telegram)

St. Louis, March 13.—Committee chairman of the four brotherhoods of Southwestern railways met here today in a general conference to make recommendations for the settlement of the eight-hour controversy. The chairman intimated that the brotherhoods were somewhat pessimistic over the failure of the United States supreme court to pass on the constitutionality of the Adamson act but discredited reports that the action here would recommend a strike at this time.

VON BERNSTORFF'S STORY OF PLOT IS SENT TO BERLIN

(Associated Press Telegram)

Copenhagen, via London, March 13.—Count von Bernstorff, dismissed German ambassador to the United States, prepared a statement on Germany's dealings with Mexico after his arrival here. This statement will be forwarded to the Berlin foreign office and if approved will be made public through the Wolff Bureau, the official German news agency. It is understood that the statement deals with the way in which foreign Secretary Zimmermann's instructions to the German minister in Mexico City fell into the hands of the American government.

SHIP GUARDS GET ORDERS.

(Associated Press Telegram)

Washington, Feb. 13.—Complete and definite instructions to the armed guards to be placed on American merchant craft were completed by the navy department and approved by Secretary Lansing today. The nature of the instructions will not be made public. The navy department is making every effort to suppress information regarding the plans.

MAY QUIT BELGIUM

(Associated Press Telegram)

Washington, March 13.—The probable withdrawal of all Americans from Belgium relief work and American Minister Whitlock from Brussels will result from pressure of the submarine campaign is forecast by the state department. The official report of the sinking of the relief ship Storstad has intensified the situation.

SEVEN MINERS RESCUED FROM A BLAST IN SHAFT

(Associated Press Telegram)

Canonsburg, Pa., March 13.—Twenty-four men were entombed by two explosions in the mine of the Henderson Coal Company at Hendersonville, five miles from here today. Seven men were later taken out alive and efforts are being made to reach the others. The Pittsburgh station of the bureau of mines has sent a mine rescue car and an automobile truck to the scene.

Three are known to have been killed, and seven injured as a result of the explosion has not been determined. Officials say the list of dead may reach ten. Rescuers are working diligently but are hindered by debris in the shafts.

ARM BADLY CUT.

(Associated Press Telegram)

John Fisher employed at Fitzsimmons had his arm badly cut while at work on Monday.

To insure Victor quality, always look for the famous trademark, "His Master's Voice." It is on every Victor record and every Victor gramophone. It is the identifying label on all genuine Victor records and Victor gramophones.

HIS MASTER'S VOICE
REG. U.S. PAT. OFF.

A thrilling
new record
of "Dixie"

sung by Mabel Garrison

Dixie Mabel Garrison (With Victor Male Quartet)
Victor Red Seal Record 64637. Ten-inch, \$1

Dear to all America is this beautiful song of the Southland. Its charming swing and dashing melody have made it perhaps the most popular of all our national airs.

This new inspiring interpretation by Mabel Garrison reveals the patriotic love that springs from a true Southern heart. It is a wonderfully stirring rendition—one that will endear "Dixie" still further to every American.

The exquisite brilliancy of Mabel Garrison's voice has earned her a place among the mighty group of famous Victor artists, and like all the world's greatest artists, she makes records for the Victor exclusively. She knows that only the Victor can bring her voice to you in all its original beauty and purity.

You can have the pleasure of hearing this new Garrison record at any Victor dealer's. He will gladly play any music you wish to hear and demonstrate the various styles of the Victor and Victrola—\$10 to \$400.

Victor Talking Machine Co., Camden, N. J.

Important Notice. All Victor Talking Machines are patented and are only licensed, and with right of use with Victor Records only. All Victor Records are patented and are only licensed, and with right of use on Victor Talking Machines only. Victor Records and Victor Machines are scientifically coordinated and synchronized by our special processes of manufacture, and their use, except with each other, is not only unauthorized, but damaging and unsatisfactory.

New Victor Records demonstrated at all dealers on the 28th of each month.

Victrola

"Victrola" is the Registered Trade-mark of the Victor Talking Machine Company designating the products of this Company only. Warning: The use of the word Victrola upon or in the promotion or sale of any other Talking Machine or Phonograph products is misleading and illegal.

Gossip From State House

Columbus, O., March 13.—Resting over Sunday and Monday at his home in Dayton, Governor Cox returned to his office today and will devote his time chiefly during the next ten days to the consideration of measures passed by the legislature and awaiting his approval or disapproval. He also will give some time to the consideration of appointments to be made by him.

It was reported here today that the governor would be urged to veto a new law passed by the legislature giving city councils instead of boards of health the right to fix salaries of health officers and employees of local health departments. The bill was introduced by Representative Billingslea of Butler county as a result of a controversy in Hamilton between the council and the local board of health over the salary of the health officer. The measure does not affect home rule cities.

School officials over the state were flooding the governor's office today with telegrams in support of a bill introduced in the legislature by Senator Crawford of Monroe county which passed the Senate and was messaged to the House but did not pass that body. The measure is designed to raise the levy for common school purposes and produce about \$2,000,000 a year more for schools. Under the proposed law the amount appropriated for school purposes would be \$6 per school youth based on attendance, instead of \$2 for each enumerated school youth as in the present law. The school officials want the House to act on the bill when it reconvenes March 20.

Request from cities and local communities of Ohio upon the legislature were pretty generally granted, a resume of the session practically ended last week shows. Cleveland obtained legislation enabling it to carry out a \$60,000,000 union depot project on the lake front; Cincinnati was enabled to issue \$20,000,000 worth of bonds if it sees fit to authorize the trustees of the Cincinnati Southern railroad, which is owned by the city, to build a union terminal station; Columbus was given a \$200,000 coliseum on the state fair grounds to house the National Dairy Show, to be held here next October and also state rights to the Scioto river and Columbus for the purpose of carrying out flood prevention plans; Dayton won a victory by the refusal of the assembly to allow the Vonderheide conservancy law under which it is operating to obtain flood protection to be tampered with while municipal courts were authorized to be established in Zanesville, Sandusky, Toledo, Alliance and Middletown and additional judges were provided for Yonkers and other cities.

Akron obtained the right to enlarge its water supply through several bills introduced by Representative Baum of Summit county.

The Senate will reconsider the Eriel insurance bill when it reconvenes March 20 after having defeated it last week. The measure is designed to legalize reciprocal or inter-

ter-insurance business by which individuals, firms and corporations throughout an attorney in fact undertake to insure one another.

Only two of the 27 measures on the legislative program of State Auditor Donahay were adopted by the General assembly. One of them providing for reform in the administration of the public school lands also was recommended by former Governor Willis and by Governor Cox. The Canny bill to establish a state purchasing department was proposed by Donahay. It passed the House but was defeated in the Senate. An attempt will be made to reconsider and pass it in the Senate at the final session.

Under the laws of Ohio you can shoot wild duck now but if a United States marshal happens to catch you at it you are liable to a fine of \$100 and 90 days in jail.

The situation is causing officials of the state, fish and game department some embarrassment. General John C. Speaks, chief game warden says at this season of the year a great many wild ducks, migrating to the North stop on Ohio lake and streams to rest and feed, and state officials have no authority to enforce the Federal law designed to protect them on their journey to the North where they go to hatch and brood their young.

Both the Federal and state laws permit Fall duck shooting beginning Sept. 1, and the Ohio Legislature two years ago, at the behest of hunters provided an open season from March 1 to April 21, and it is complained that very few ducks stopped in Ohio on their flight South in the Fall and demanded the right to shoot them when they were most plentiful here.

Unless the Ohio Legislature repeals the law permitting Spring shooting of ducks they may continue

to be slaughtered so long as the Federal government makes no provision for enforcing its laws.

Governor Cox has received a telegram from W. G. McAdoo, secretary of the treasury complimenting him and the Ohio General assembly upon their prompt action in providing legislation to make bonds of the Federal land banks, legal investments for trust funds, savings banks and insurance companies in Ohio.

Township trustees said to be the poorest paid public officials in Ohio are to get a raise in their salaries unless Governor Cox vetoes a bill granting them the right to collect \$2.50 a day or \$250 a year instead of \$1.50 a day and \$150 a year during the session the governor was opposed to any salary increases of term extenders of county officials but the trustees bill slipped through the last day. The County Commissioners salary increase bill passed the Senate and, on the House calendar and an attempt is to be made to pass on the closing day. It raises the minimum from \$400 to \$1200 a year and a maximum from \$400 to \$6000.

Efforts of the limited practitioners of Ohio to get out from under the control of the State Medical board where they were placed in 1911 ago by the Platt-Elkins law have failed thus far in the Legislature. The Chiropractors, Naturopaths, Osteopaths, Optometrists and Christian Scientists asked for changes in the law.

John M. Swartz
ATTORNEY-AT-LAW

Practice in all courts. Will attend promptly to all the business entrusted to him. Special attention given to collections, administrations of estates, guardians and trustees, carefully stated and attended to. Special facilities for obtaining patents in all countries.

GOSSER'S GIFT IS RETURNED TO ESTATE BY COURT'S ORDER

Attorney Edward Kibler, Sr., was in Coshocton several days last week engaged in the trial of the Gosser will case, a famous litigation in that county, decided by Judge James Glenn of Common Pleas court yesterday.

Charles P. Gosser, a wealthy resident of Coshocton, had given in his lifetime to Mrs. Fanny N. Burns of Cleveland, 502 shares of stock in the Pope-Gosser China company, and she held possession of them prior to and since his death.

He made a will directing that those shares and his debts and expenses, be deducted from his gross estate and then devised the residue to various legatees, but did not expressly bequeath the shares to Mrs. Burns.

The court held briefly that the gift during life was not valid, because incomplete, as he continued to exercise right and dominion over the stock supposed to be given to Mrs. Burns, and that the contention of her attorneys of such dominion being that of his agent was untenable.

Making no direct devise of the stock to Mrs. Burns, the court held that as far as it was concerned Gosser died intestate and the shares became a part of his estate to be divided among decedent's relatives according to law.

Making no direct devise of the Pope-Gosser China company transfer the 502 shares of stock to C. B. McCoy, executor of the will, who is to hold it in trust until the youngest child of decedent's brother, Clarence Gosser, becomes of age.

RAIN AND SLEET CRIPPLES SERVICE OF INTERURBAN

(Continued from Page 1)

Ice began to thaw a better service was given.

As the day advanced the damage to the lighting, car and telephone and telegraph systems of the city became more serious. The limbs of trees could no longer bear the burden of the ice and in falling they tore all wires with them.

The streets are littered with limbs and a large tree along the west approach to the courthouse was practically uprooted and a telephone pole in West Main near the schoolhouse was pulled down. The Bell Telephone Company and the Newark Telephone Company had their complete crews working all day, the first effort being made to clear up the wires, so that contact with high tension wires could be avoided.

A general warning is being issued to pedestrians to avoid contact with any wires along the streets, and special care should be taken tonight.

The local telephone systems will be "very much bad" for a few days until the trouble can be cleared up, and the long distance lines are also "demoralized." The Newark Telephone Company is experiencing some trouble west of the city, but all say the damage is not as serious as was anticipated.

During the noon hour the North Newark residents were inconvenienced, when the 11-15 car broke a trolley near Comodore street and traffic was delayed for several hours.

Manager Frank Espey of the Ohio Light & Power Company stated today was the worst trouble the company had experienced in 15 years. The great limbs of trees are tearing down the wires of the company and war is felt for the safety of the public.

An effort is being made to restore the wires so that lights for the city can be furnished by tonight.

According to meager telegraph dispatches the sleet and ice storm is general over the state, but the telegraph service including the Associated Press was badly crippled.

Wires are down all over the state and every effort was made locally to secure state news, both telephones, the Western Union and the press association were used, with but little success. A partial service was available early this morning but by noon the town was nearly isolated.

MULBERRY TREE FALLS UNDER THE WEIGHT OF SLEET

The black Russian mulberry tree which stood for years on the south side of the west approach to the courthouse was a victim of the storm and toppled over about noon today, tearing the roots out with it.

The branches of the tree were heavily coated with ice and the weight was more than the roots could sustain, as they were very brittle and only under ground a few inches.

The tree is said to have been planted on the first Arbor Day, 1884, by Joseph H. Newton. It thrived and bore berries and for years the tree was the delight of the small boy and girl.

It was also the abode of the courthouse janitor or caretaker whose duty it is to keep the walks clean as the berries kept dropping onto the stone walk and marching, causing a fancy black stain.

Never tell a pretty girl that a thing is as plain as the nose on her face.

Blotchy Skin

Many a time you have looked into the mirror and wished that your skin would be like other people's. You have tried all sorts of lotions and creams, but they have not helped you. This is because you are not using the right kind of skin treatment.

Wash D.D.D. the lotion of healing oils, over your face and neck, and wash away the blotches and find them gone!

BRAKEMAN TAKEN ILL ON HIS TRAIN; NOW IN HOSPITAL

Seized with an attack of acute appendicitis, B. and O. brakeman Roy Miller was taken off his train yesterday afternoon and sent back to Newark. At Zanesville a telephone message was sent to B. and O. Physician A. A. Church to have an ambulance at the B. and O. station, as Miller was very seriously ill. Dr. Church did not get the message and when he got to Newark Miller attempted to walk to his apartments in the Orpheum flats. On the way he fell and injured his head, but by a subconscious impulse of direction he kept on and arrived at his home, L. N. Bradley's ambulance was called and Miller was hurried to the City Hospital where Dr. Carl Evans operated upon him at 6:30 last evening. The patient was reported today as doing well under the circumstances, but the physician says it is too early yet to tell with certainty the outcome.

BIRTH ANNOUNCEMENT

Announcement is made of the birth of a daughter to Mr. and Mrs. Charles Wagonheim, at their home in Maple avenue, on Tuesday, March 13.

HAUPT-WILSON.

Mr. Hugh Haupt of Columbus and Miss Pearl Wilson of this city, were united in marriage this morning at 10 o'clock. Rev. L. C. Sparks officiating at his home on North Fifth street. Mr. E. E. Haupt, the father of the bridegroom, witnessed the ceremony and at its conclusion the party left for Columbus, where they will reside.

DRESS UP WEEK TO BOOST EASTER TOGS; MEET WEDNESDAY

Chairman George Hermann of the mercantile bureau, Chamber of Commerce, has called a meeting of the merchants of Newark for Wednesday morning, at 9 o'clock sharp, to consider plans for "Spring Dress-Up Week," March 23-31 inclusive. The meeting will be held in Chamber headquarters and it is the purpose to make arrangements for the biggest spring demonstration in the city's mercantile history.

The dates chosen are an especially happy selection as April 8 is Easter Sunday and the publicity of "Spring Dress-Up Week" will permit the retailers to link up the dress-up appeal with the long standing appeal of Easter. A popular slogan for the spring campaign will be, "Dress Up for Easter." At Wednesday morning's meeting a number of interesting plans to bring out the spring buying public will be suggested for approval. Every merchant is urged to be present.

FARM BUREAU TO HEAR AGENT FROM RAVENNA THURSDAY

President W. C. Hall of the Licking county farm bureau extends a cordial invitation to members of the agricultural bureau of the Chamber of Commerce to attend a meeting in Taylor Hall, Y. M. C. A., Thursday, at 1:30 p. m. Farmers from all parts of Licking county will be present and the meeting will be addressed by H. P. Miller, county agent at Ravenna. President Hall and O. A. Brooks of Alexandria, Secretary-Treasurer of the farm bureau, will be at Chamber of Commerce headquarters during the morning, where they will receive reports on membership from the 26 directors of the bureau. Thus far more than 300 agriculturalists are enrolled and it is expected that enough applications will be brought in to reach 431, the number required before state and federal aid will be given and Licking county will have a county agent of its own.

(Continued From Page 1)

concerned at Hamburg and that it has been engaged in the manufacture of parts of air burning engines for American warships. Several years, it was said, the Schmitt & Korting, concern manufactured shells for this government. Mrs. Fischer's father is said to be at the head of the parent company in Hamburg.

It was at Mrs. Fischer's request, according to Henry Rohrer, a wholesale grocer, and the other principal in the alleged chameleon fraud, that he instruct his chauffeurs to bring back some packages from interned trade after delivering groceries for the officers. Rohrer in a statement said that he had been assured by Mrs. Fischer the boxes contained only souveniers, and that he was innocent of any wrong doing.

No man dreads old age to the extent of wanting to die young.

JURY AWARDS LAND OWNERS \$2,843 FOR MT. VERNON ROAD

In the case of Albert Wolfe, et al., vs. the County Commissioners, et al., an appeal from the commissioners' decision in the matter of compensation and damages in the change of the Mt. Vernon road, which has been on trial before a jury in the probate court of Judge Robbins Hunter for the past several days, the jury reported last evening at 5 o'clock after having deliberated for an hour and a half, finding as follows:

Albert Wolfe, damages allowed, \$500.

J. A. Reed, compensation, \$220; damages, \$230.

Stephen Bishop, compensation, \$120; damages, \$380.

George T. Nash, compensation, \$147.50; damages, \$217.50.

Jennie M. Bristol, compensation, \$348; damages, \$160.

Margaret Davis, compensation, \$180; damages, \$120.

The compensation and damages awarded the seven land owners who appealed the case amounted to a total of \$2,843. Four land owners did not appeal but agreed to the commissioners' findings as follows: C. W. Seward, compensation and damages, \$175.

John Fisher, same, \$425.

Florence Green, same, \$149.

Albert Showman, same, \$290.

The total compensation and damages on the improvement would be \$3,707, which must be borne by the petitioners for the improvement, there being nearly a thousand. The next action in the matter will be taken April 20, and by that time \$2,500 of the amount allowed land owners must be paid before the commissioners can grant the improvement. If the money is forthcoming the improvement undoubtedly will be granted. The Baltimore and Ohio Railroad company would profit more than any one else by the change of road and it is said that that corporation is willing to bear the greater share of the expense. The improvement would mean state aid in piking the Mt. Vernon road between this city and the north-boundary line to Knox county. It is also said that the officials of the latter county are ready at any time to improve the road on north to Mt. Vernon.

SOMETHING STIRRIN'

(Associated Press Telegram)

Amsterdam, via London, March 13.—A Berlin telegram quotes an official statement issued there as saying:

"A Havas news agency report speaks of events on the western front which are awaited in France with greatest confidence. We also look forward to these events with the greatest confidence."

SUFFERED YEARS OF TORTURE, CURED IN ONE MONTH

Many Cases Suffering for Years and Thought to be Incurable, Now Being Healed.

A prominent citizen of Alliance, O., writes: "For years I suffered with eczema on my face. One leading druggist recommended Amolox. I bought one box of ointment and two bottles of the liquid and one cake of soap. After a month's treatment I am completely cured. It has been several months since using it and my face is perfectly smooth with no sign of a return of the trouble."

JOHN HODGSON, 326 Noble St., Alliance, O. Amolox, the new scientific prescription for the relief and cure of skin diseases, now at leading drug stores. Trial size 50c. T. J. Evans of Newark will refund the money if it fails to do what we claim for it.

Send postal for free sample to Amolox Laboratories, Youngstown, Ohio.

Committee Meetings

of men or women can be held in our Directors' Room by making previous arrangement for same.

This is a large room in the front of the second floor, can be reached from the street without going through our business offices.

No charge is made for the use of this room.

It is part of the Service rendered by the "Old Home." You and your friends are welcome.

KIDNEY REMEDY HIGHLY RECOMMENDED

There is no medicine which we handle that gives such good results as your Swamp-Root. Many of our customers have informed us at different times that they have derived great benefit from its use.

There was one case in particular which attracted a great deal of attention in this neighborhood early last Spring, as the gentleman's life was despaired of and two doctors treating him for liver and kidney trouble were unable to give him any relief. Finally a specialist from St. Louis was called in but failed to do him any good. I at last induced him to try your Swamp-Root and after taking it for three months, he was attending to his business as usual and is now entirely well. This case has been the means of creating an increased demand for your Swamp-Root with us.

Very truly yours,
L. A. RICHARDSON, Druggist,
May 27, 1916. Marine, Illinois.

Letter to
Dr. Kilmer & Co.
Binghamton, N. Y.

Prove What Swamp-Root Will Do
For You.

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention the Newark Daily Advocate. Regular fifty-cent and one-dollar size bottles for sale at all drug stores. (Advertisement.)

EASTER THOUGHTS.

SOMETIMES within our hearts the good lies dead.
Slain by untoward circumstances or by our own free will,
And through the world we walk with bowed head
Or with our senses blinded to our choice,
Thinking that "good is evil—evil good,"
Or with determined pride to still the voice
That whispers of a "resurrection morn."

This is that morn—the resurrection hour
Of all the good that has within us died,
The hour to throw aside with passion-ate force
The cruel bonds of wrong and blindness—pride—
And rise into a level high of power,
Of strength, of purity, while those we love rejoice
With "clouds of angel witnesses" above
And all the dear ones who before have gone.

And we ascend in the triumphant joy
And peace and rapture of a changed self
That now transfigured stands—no more the toy
Of circumstance—or pride, or sin, to blight—
Until we reach sublimest heights
And stand erect, eyes fixed upon the light.

Strong in the strength that wills all wrong to still,
Will, pointing upward to the ascended Lord.
Bless, aye, thrice bless, this fair, sweet Easter dawn.

—Isabel Scott Stone in Washington Star.

5,000,000 CORNS LIFTED RIGHT OFF

Try 2 Drops of Magic "Gels-It."

There is a wonderful difference between getting rid of a corn now and the way they used to try to get rid of it only four or five years ago. "Gels-It" has revolutionized corn history. It's the only corn remedy today that acts

"See? Just 2 Drops of 'Gels-It' Now Tomorrow You'll Feel That Corn Right Off—and It's Gone!"

on the new principle, not only of shriveling up the corn, but of loosening the corn off—so loose that you can lift it right off with your fingers. Put 2 drops of "Gels-It" on that corn or callus tonight. That's all. The corn is doomed sure as sunrise. No pain, no trouble, or soreness. You do away once and for all with toe-hauling bandages, toe-binding straps and irresponsible what-nots. Try it—get surprised and lose a corn.

"Gels-It" is sold everywhere, 25c a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Newark and recommended as the world's best corn remedy by T. J. Evans and W. A. Egan.

Try This If You Have Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you need. This simple remedy has never been known to fail. (Advertisement.)

NEW POSTOFFICE TO BE READY FOR USE BY NEXT NOVEMBER

Work on the new postoffice building corner First and East Main streets has progressed thus far in a most satisfactory manner, the only drawback being the weather. The stone which is quarried at Amherst near Lorain comes to Newark trimmed, cut and finished. Each one has a number corresponding to one upon the blue prints, and is ready to put into place. The freight congestion and embargo has not affected the work and contractor Cissel of Wooster, says that if all goes in the future as well as the past the building may be ready to occupy by November 1st, a month earlier than the limit set in the contract.

Several car loads of granite are expected from Stone Mountain, Georgia which will be used in the building. This stone is taken from a mountain 700 feet high of solid granite, one of the great natural resource of that state.

The Courts

Assignment of Cases.
Judge T. B. Fulton has made the following assignment of equity cases which will be for hearing beginning next Monday morning at 9 o'clock:

Monday, March 19
12788. F. M. Black vs. W. S. Wright. F. M. & B. Wright, Flory & Perry.
16653. The Granville Bank vs. B. C. Belt. Jones & Jones.
17043. Earl Fullerton vs. The Ohio Electric Ry. Co. James; F. M. & B.

Tuesday, March 20
17099. Lydia Huffman vs. Samuel Huffman. Mitchell & Moore; Florys.
17249. John Flanagan vs. Geo. P. Burd. Martins, Kiblers; Davies.
17180. Ollie Barcus vs. Wilhelmina Bentlick. James & Moore; Davies.

Wednesday, March 21
17287. Phil B. Smythe vs. Ohio Electric Ry. Co. Smythes; F. M. & B.
17360. Ray E. Loughman vs. State of Ohio. James & Moore.

Thursday, March 22
17470. State of Ohio on rel. H. J. Long vs. Board of Education of Bennington twp. C. Norpell, Jones & Jones; F. M. & B.
17548. D. M. Smith vs. Nelson Walters. Taneyhill; Smythe.

Friday, March 23
17686. Vida Shriver vs. Peter Shriver. B. G. Smythe.
17709. Ella McDaniel vs. Wm. A. McDaniel. Horner; B. G. Smythe.

Monday, March 26
17748. Wm. A. McDaniel vs. Henry Fitzsimmons. B. G. Smythe; J. W. Horner.
17769. Fannie B. Brown vs. Willis B. Brown. J. W. Horner.

Tuesday, March 27
17877. Irwin H. Peters vs. Cora B. Peters. B. G. Smythe.
17895. Peter S. McNally vs. Everett W. Stewart. Martins; Florys.

Wednesday, March 28

Tuesday, April 3
18155. Ralph Wyeth vs. W. D. Harris. Flory & Flory; F. M. & B.
18176. Jennie L. Carson vs. James M. Carson. J. W. Horner; B. G. Smythe.

Files Petition.
William H. Miller has filed a petition in common pleas court against Harley Hughes, John L. Hughes, Samuel Forsythe and W. B. Plyler. The petition alleges that prior to March, 1917, plaintiff was the owner of six acres of land in Newark township, and that he sold the land agreeing to pay the usual commission of two per cent. for a purchaser, which amounted to \$130; that he is ready and willing to pay same but that the four defendants each claim the commission; plaintiff asks the court to grant him permission to pay same into court and that he be discharged from all liability in relation thereto.

Appointed Administrators.
Attorneys Carl Norpell and Harvey J. Alexander have been appointed administrators of the estate of Mary C. Watkins, late of Alexandria. O. Bond \$25,000.

Divorce Petition.
Clyde E. Widen has filed a petition in common pleas court against Ada M. Warden. They were married

at Steubenville, O., July 22, 1915. The petition alleges that shortly after the marriage defendant became dissatisfied and stated that she was sorry that she had ever married plaintiff; that she left their home on September 1, 1915, and has failed to return although plaintiff has requested her to do so. He asks for a divorce and all relief.

Real Estate Transfers.
Anna M. Grasser to Alexander J. Farrer, lot 1202 in Giffin and Ed- dy's addition, \$1, etc.

Wm. R. Blue to John J. Blue, 2 3-4 acres in Burlington township, \$1, etc.

Chas. W. Cunningham to Edna V. Cunningham, lot 8 in Granville, O., \$1, etc.

Margaret Hoffman to Ernest E. Davis, inlot 25 in Fleck's second addition, \$1500.

The Wehrle Realty Company to Ervin A. Grubich, lot 5780 in Rachel Wilson's addition, \$1,900.

Charles E. Tatham to Martha A. Keyes, 120 acres in Union township, \$1, etc.

Samuel W. Heller to James C. Pine, lot in Chatham, \$1, etc.

W. F. Larue, as special master commissioner, to the Pittsburgh, Cincinnati, Chicago and St. Louis Railroad Company, inlot 269 in Taylor's second addition, \$3,000.

Nancy James Husbands to Granite Improvement Company, east 36 feet of lot 266, \$1,200.

Carl H. Stanford to Mary H. Coulter, 71 acres in Monroe township, \$7,500.

Edward Kibler to James M. Vermillion, 9 acres in Licking township, \$500.

Ida M. Norman to Elmer Jane Foster, 22 1-2 acres in Hopewell township, \$1, etc.

Clinton L. Snider to Aaron R. Vanatta, part of inlot 1252 in A. Flory's first addition, \$1, etc.

Carrie M. Lewis to Susannah McGrew, lot in Johnston, O., \$2,600.

Carl H. Snyder to Kathryn M. Shockey, 98 acres in Jersey township, \$1, etc.

Henry C. Neibarger to Mary Drumm, 61 acres in Harrison township, \$2,600.

John M. Lake to Frank L. Galbraith, 100 acres in McKean township, \$1, etc.

Virginia B. Orr et al. to Olive Orr Williams, partition and mutual conveyances, 303 acres in McKean township.

J. Edgar Grafter to Charles W. Kloppe, inlot 3423 in Woodsdale addition, \$1, etc.

Seeks Separation.
Lewis F. Lindmore has filed a petition in common pleas court against Emma Lindmore. They were married May 22, 1915. Gross neglect is alleged, the petition reciting that defendant abandoned the plaintiff two months after their marriage and has willfully remained away. Plaintiff asks for a divorce and all proper relief.

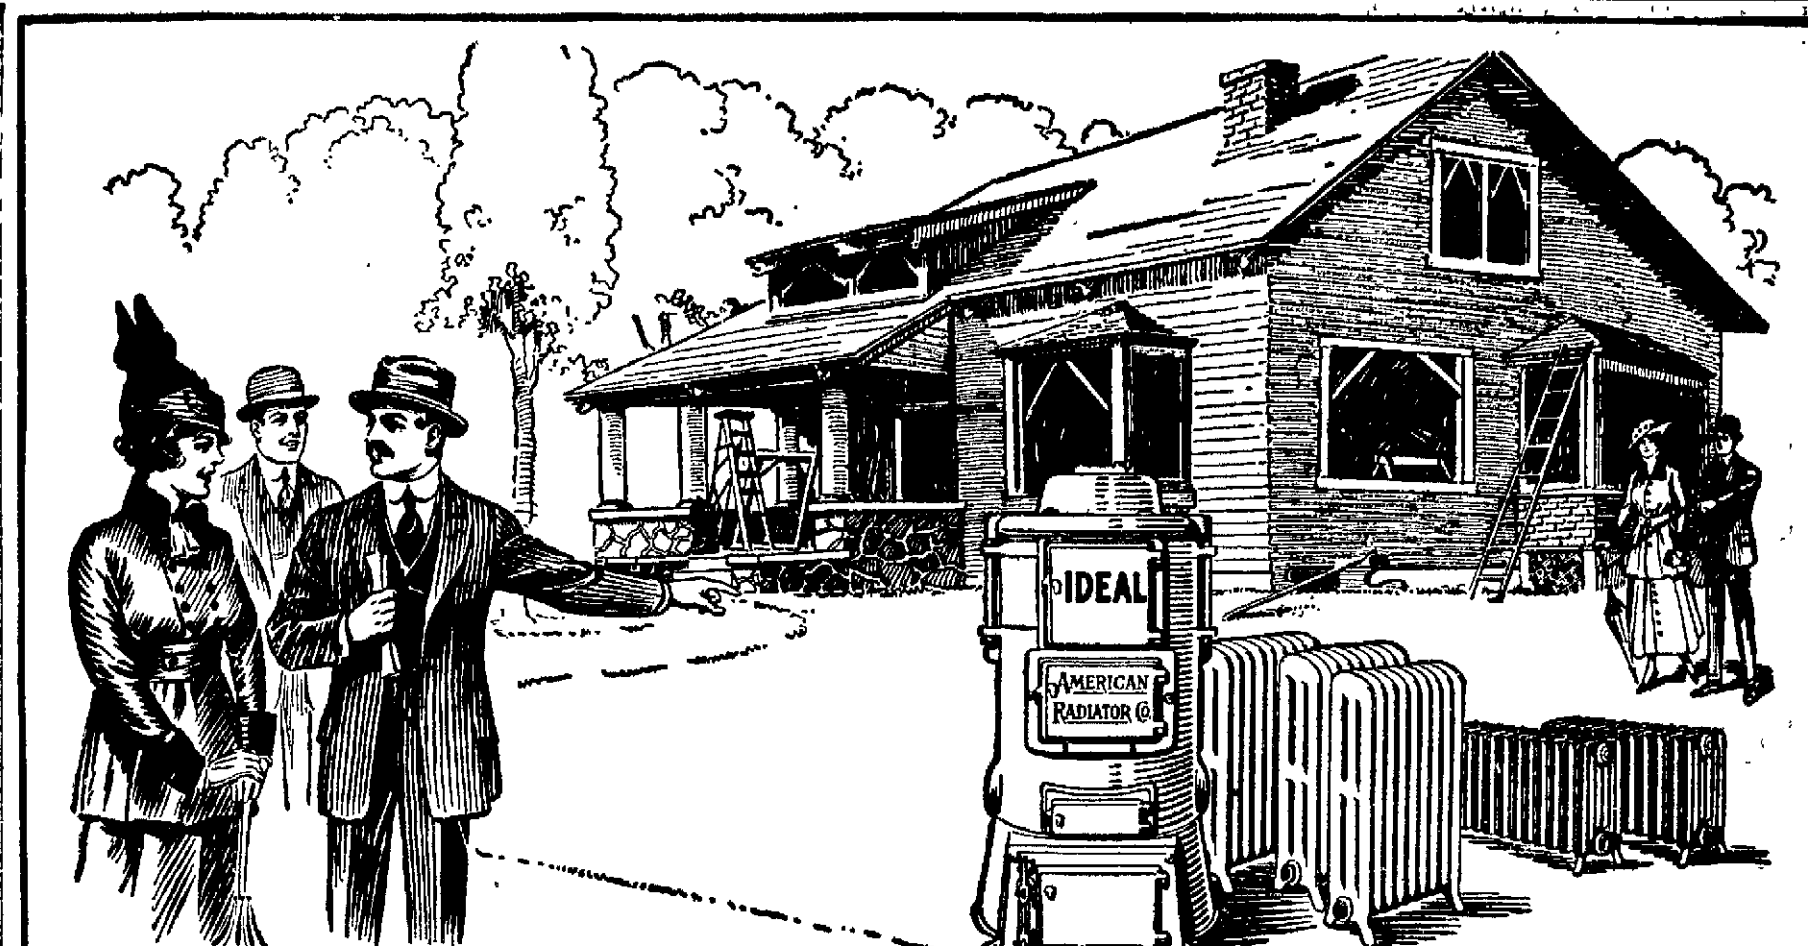

Bill of Exceptions.
A bill of exceptions was filed in the case of the State of Ohio vs. Albert Weathers, the latter asking the court to reverse a judgment found in a local justice court.

Fined by Justice.
A. E. Marshall of Cambridge was fined \$5 and costs by Justice Fletcher S. Scott today on the charge of disorderly conduct at Croton a couple of days ago. He was remanded to jail until the costs in the case are paid.

Taken to Reformatory.
James "Bud" Werts was taken to the reformatory at Mansfield yesterday afternoon by Deputy Sheriff Frank Brown. Werts was sentenced to an indeterminate period after having pleaded guilty of manslaughter for the killing of his brother-in-law, George Stevens.

Marriage Licenses.
Hugh J. Houpt, plasterer, of Columbus, O., and Miss Pearl Wilson of this city. Rev. L. C. Sparks to officiate.

Court Seeks Shelter.
The court house roof over the room occupied by the court of appeals is in bad shape and badly in need of repairs. This morning the water came pouring into the room in several spots while the court was in session and it was necessary to place several tubs to catch the down-pour. The county commissioners will rush repairs as soon as the weather permits.

Makes easy selling property

"You might as well not build the cottage if you don't put radiator heating in it," said the real estate dealer, "for when you come to sell or rent it, you'll have to sacrifice a great deal if the house has old-fashioned heating." It is now recognized by all that the greatest feature in any home is a comfort-guaranteeing, fuel-economizing outfit of

AMERICAN & IDEAL RADIATORS & BOILERS

It pays big to give
15% more rental for an
IDEAL-heated building

IDEAL Boilers and AMERICAN Radiators soon repay their cost in fuel economies and absence of repairs. Made throughout of high-grade iron; nothing to wear out or rust out. Every feature of their construction has been tested and its value and efficiency definitely established in our laboratories, here and abroad. When put in your building we know that they will get full heating value from every pound of fuel. These outfits cost no more than ordinary outfits. Accept no substitute!

A No. 152 IDEAL Boiler and 265 ft. of 38-in. AMERICAN Radiators, costing the owner \$190, were used to heat this cottage. At this price the goods can be bought at any reputable, competent fitter. This did not include cost of labor, pipe, valves, freight, etc., which vary according to climatic and other conditions.

On the Easter Tea Table

FOREMOST among Easter dainties are the south German Easter loaf, the mid-German "bunny bread" and the delicious "rabbit ears."

The first of these consists of light, well sweetened, many raisin dotted, white wheaten bread; the next of cookie dough shaped into bunnies—snub tailed, long eared, wildly rampant or hunched up bunny fashion—with a bright silver coin for an eye. And the really most toothsome "hasen-ohren," or bunny ears, are made as follows:

Half a pound of flour, three tablespoons of sugar, four tablespoons of butter, a teaspoonful of salt, two whole eggs and the yolks of two others are worked into a dough, which let stand for three hours in a cool spot.

Roll out to the thickness of a knife blade and with a pastry wheel cut into strips four inches long and one inch wide. Bake in briskly boiling lard to a delicate golden yellow, sprinkle liberally with powdered sugar and eat before they are three hours old.

These same thin wide strips, cut into longer lengths and woven round and round before immersing in the boiling lard, form the so-called "stork nests" of Swedish fame. Such a "nest" filled with delicately tinted Easter eggs makes a charming center dish for the juvenile Easter supper table. — New York Evening Sun.

A DEPENDABLE MEDICINE
Lydia E. Pinkham's Vegetable Compound is a dependable root and herb medicine. It has made a place for itself among the great mass of people, because thousands of sick women have tried it and proved that it will accomplish all that is claimed for it. Nothing unfavorable can honestly be said about it. It does not contain injurious drugs. It is a root and herb remedy founded upon a physician's prescription, and is manufactured for a specific purpose. That it accomplishes this purpose is proved by thousands and thousands of convincing testimonials. — Advertisement.

IMPORTANT MEETING RAILROAD MEN

There will be a joint meeting of the local lodges of the B. of L. E.; B. of L. F. & E., O. R. C., and B. R. T. at Trauhman's and Fireman's hall, Tuesday, March 13th, 7:30 p. m. All members and others expressed in the above orders are urgently requested to be present as business of the utmost importance will be transacted.

Auditor's Office, Licking County, Ohio, February 25th, A. D. 1917.
In the matter of County Ditch Improvement No. 6.

Petitioned for by Milton Day. To the Lot and Land Owners and to the Corporations, either Public or Private, Affected by said Improvement.

You, and each of you, are hereby notified that on the 25th day of February, A. D. 1917, Milton Day and others, filed a petition with the Auditor of Licking County, the prayer of which is for the widening and deepening of the Channel of a ditch on the following starting point, route and terminus, to-wit: Commencing at a point in Jersey township where the ditch known as the Fairbrook ditch terminates a northerly direction across land now owned by W. F. Buckner, thence in a north-westerly direction across land owned by Milton Day, thence across land owned by Miller, here and sufficient distance to give a right of way to the following:

You are all notified that the following time and place have been fixed when and where the Commissioners of said County will meet for the hearing of said petition, to-wit: At the termination of the Fairbrook ditch on Friday, March 16th, 1917, at 10 o'clock A. M. for the purpose of hearing and all proof of the ditch and the proposed widening and deepening thereof, and whether the ditch described is the best route and sufficient distance to give a right of way to the following:

No further notice of the proceedings in this matter will be given.

Witness my hand and the seal of said County, Auditor of Licking County, Thomas J. Pop, what are the first of week-end? Tommy's Pop: Oh, I suppose the next time a married man has to wear when his wife buys them, my son."

ASTHMA Simple Harmless Remedy Brings Quick Relief. Makes Breathing Easy.

Many cases of immediate relief and rapid recovery from bronchial asthma of long standing are being credited to a discovery made by Dr. Eugene Howard of Worcester, Mass. Dr. Howard's prescription is called Oxidase and comes in the form of a tablet which the patient allows to dissolve slowly in the mouth. Its curative, healing juices thus mingle with the saliva and open up the air passages and regulate the spasmodic lung action. These tablets, though pleasant to the taste, are so powerful and rapid that many users are obliged to be obliged to sit up in bed gasping for breath and unable to sleep, report that they now put a single Oxidase tablet in their mouth a few seconds to bed and are then lie down and breathe easily and naturally and get a good night's restful sleep. W. A. Brennan and Evans have tried Oxidase tablets on their local druggists handle Oxidase tablets on the positive guarantee of money back if it does not give immediate relief.

HOW TO RELIEVE HEAD NOISES

GOOD ADVICE FOR THOSE WHO SUFFER FROM HEAD NOISES.
People who are growing hard of hearing and who experience a stuffy feeling of pressure against their ear drums, accompanied by a ringing and rattling sound in their head like water falling or steam escaping should take prompt and effective measures to stop this nervous breakdown and prevent the various degrees of complete or partial deafness, and must do so before they suffer from them constantly. Some of these head noises, in certain cases, are due to the fact that the blood vessels in the head are contracting and moving, with their never ceasing throb, they drive the sufferer almost frantic and complete nervous breakdown may result.

Thanks to a remarkable preparation, it is now possible to lessen the severity of these head noises and often completely overcome them and with the disappearance of the head noises the hearing itself greatly improves, and very frequently can be restored to normal. It can be easily prepared at home for about 75 cents and we believe is a most effective treatment for this trouble.

Prepare the strength, take this home and add to it a pint of hot water and a glass of cranberry juice. Stir much. Dissolve these head noises in cranberry juice. Put some cranberry juice in a glass and add to it a pint of hot water and a glass of cranberry juice. Stir much. Dissolve these head noises in cranberry juice. Put some cranberry juice in a glass and add to it a pint of hot water and a glass of cranberry juice. Stir much.

Persons who have been suffering from head noises should take this treatment at once and see the results.

It doesn't seem exactly for the man who is dissatisfied with his lot to ask some girl to share it.

NEURASTHENIA NOT AN AMERICAN DISEASE

A SPECIALIST'S OPINION OF ITS ORIGIN, CAUSE AND CURE.
"Although not an American affliction in its origin, neurasthenia is peculiarly American in its distribution," says a leading American authority. "The rush and tear and overwork, the emotional excitement connected with failure and success, the slavery to social obligations and pleasures, so characteristic of Americans, account for its wide spread existence in this country. Business life is a continuous nerve-storm, and men and women alike are attacked by this arch-enemy which has afflicted the human race from the beginning of history. This same authority reports some extraordinary cures of various types of nervous afflictions, failing old age and general weaknesses, through administering a form of phosphate now known among druggists as bitro-phosphate. He cites cases of persons up-wards of 70 years of age who quickly regained their strength and cheerful energy of sleep being restored to the sleepless and explains why this particular phosphate makes beautiful, healthy women and strong vigorous men."

Note: Bitro-phosphate mentioned above is a product of such potency and reliability that the manufacturers issue a signed guarantee binding themselves to return the full purchase price to any weak, nervous person who does not begin to immediately regain strength and steady nerves under this treatment. Sold by first class druggists everywhere. Advertisement.

There is a difference between the girl who has a pinched look and one that has just been squeezed.

Diversify Your Investments

Babson says: "When buying securities always distribute funds over a broad list of good issues. Unforeseen circumstances may cause any security to turn out a distinct disappointment. To buy into a single issue is a pure gamble."

Tax day in Ohio is April 9th. Until then there will be a constantly increasing demand, accompanied by the usual advance in prices, for

Tax Exempt Securities

Below is a well diversified line of high grade stocks—tax free in Ohio—that we believe merit prompt and serious consideration:

Ohio Brass Co. 6% Preferred—Commenced business in 1888, with an investment of a few hundred dollars. Now have net quick assets (after all debts deducted) equal to over 1 1/2 times the total preferred issue of \$1,000,000. Earnings average the past 5 years 4 1/2 times the preferred dividend requirements. This company has no war business.

Paragon Refining Co. 7% Preferred—Secured by staple assets and business well established. Company's last statement shows net assets over 3 times total outstanding preferred stock. Their earnings this year will be about 6 times the preferred dividend requirements.

American Rolling Mill Co. 6% Preferred—Offers an opportunity of gain by purchase of present issue and exchanging for new issue, at the same time securing an exceptionally well secured and seasoned issue.

Corcoran-Victor Co. 7% Preferred—Has large sinking fund requirements for retirement of preferred issue each year. The entire yearly dividend requirement is but \$38,500, and the company earned during the month of January over \$40,000 applicable to preferred requirements.

The John Douglas Co. 7% Preferred—Only \$350,000 par value outstanding. The net quick assets equal about 1 1/4 times the issue. One requirement for protection of stock is that NET quick assets shall at all times equal the par value of the outstanding preferred stock. This means substantial and material protection.

Goodyear Tire & Rubber Co. 7% Preferred—Is secured by ample assets. Volume of business of immense magnitude and showing great strides.

Cincinnati Gas & Electric Co. 5% Preferred—This company has paid dividends continuously for 68 years.

These stocks are now, or will be, listed on the Cincinnati Stock Exchange or other exchanges. They possess intrinsic worth, business stability and substantial earning power. By diversifying your funds and selecting these issues, your net income free of taxes will be about 6 1/2%.

WRESTLING

Auditorium Theatre

Thursday Evening, Mar. 15

Jack Sampson vs. Paul Bowser

Good Preliminaries.
Admission 25, 50, 75 and \$1.00. Seats now selling.

ADVOCATE CLASSIFIED ADS BRING RESULTS

LOTS OF ACTION IS PROMISED FOR BOUT THURSDAY EVENING

Extra precautions will be taken at the Thursday night wrestling match to remove all breakable articles from the "danger zone" which will be in the immediate vicinity of the mat. This precaution is taken because it is realized that the match between Paul Bowser, Newark favorite, and Jack Sampson, Wisconsin challenger, will be one of the liveliest events of this wrestling season. Fans who saw the two men in action for a brief ten minutes at the last match, are free to predict that the last action-Bowser meeting will be a tame affair compared with the coming event. Sampson is a wrestler of the Kilonis style but looks to be the better man. He is as full of confidence as a bull pup.

Bowser is none the less confident and his backers are sure he will protect his laurels in an adequate manner. He is fresh from victories over Kilonis and Joe Turner and therefore is necessarily in good condition. Just enough training to maintain this condition will be his policy today and tomorrow.

The usual preliminaries will be arranged an evening full of real entertainment seems to be in store for the fans.

OLIN BEATS ROLLER; WILLOUGHBY DRAWS IN BOUT WITH MIKE YOKEL

Chicago, March 13.—John F. Olin of Worcester, Mass., defeated B. F. Roller of Seattle, Wash., in a wrestling carnival here last night, winning the first fall in 41 minutes 51 seconds with a body lock, and the second fall in 4 minutes 4 seconds with a body scissors and bar arm lock.

Charles Cutler of Chicago defeated Mort Henderson of New York, taking the first fall in 24 minutes 25 seconds with a jack knife and scissors lock, and the second fall in 5 minutes 15 seconds with a body scissors and wrist lock hold. In each match the contestants were heavyweights.

No decision was given in a bout between Mike Yokel of Salt Lake City and Walter Wiloughby of Bear or Dam, Wis., middleweights. Yokel won a fall in 27 minutes 46 seconds with a head lock and leg lock. The men wrestled for 35 minutes thereafter without a fall and decided to call the match a draw.

CAMBRIDGE YOUTH ORDERED TO ASYLUM BY GUERNSEY JUDGE

Worthy Dyson, probate judge of Guernsey county, arrived in the city at noon today accompanied by two physicians and they proceeded to the county jail and held a lunacy inquest on Alfred Marshall, the young man brought from Croton yesterday by Sheriff Chas. H. Swank on a charge of disorderly conduct. It seems that Marshall, who is but 22 years of age, has been addicted to the drug habit, and while in Croton yesterday threatened a local physician unless he furnished him with the desired drug. He also threatened to take his own life. He was found to be suffering hallucinations. The Cambridge physicians making the examination, and were committed to the state asylum by Judge Dyson. It is thought that treatment there will in time effect a cure.

RECOVERING FROM OPERATION.
Mrs. Michael Nagy, who underwent a serious operation at the City Hospital recently is getting along nicely. The attending physicians were Dr. H. H. Postle, Carl Evans and W. B. Nye.

ILL WITH GRIP.
C. H. Bidgood, Associated Press operator is ill at his home in Elizabeth street, suffering with a severe case of the grip.

THE OLD FLAG

Up, up, with the old flag
And wave it afar.
If peace means the old flag,
Then some one must die!

Up, up, with the old flag!
It out in the air.
If peace means the old flag,
It also means war.

For, was not the old flag
Born out of the fray?
Then why pull the old flag
Down in dismay?

'Twas justice that gave it,
'Tis justice that calls;
'Tis more than a ribbon
To hang from our walls.

'Twas truth that unfurled it,
It out in the past;
If truth it did symbolize,
The symbol must last.

'Twas home love that gathered
Its votaries then;
'Tis home love that brings them
Together again.

'Twas patience and valor
That kept it so long;
Then patience and valor
Must still be our song.

Up, up, with the old flag!
Up, up, to the sky!
Oh, God, bless the old flag!
Thy truth must not die!

—Rev. James Deans in Pittsburgh Chronicle-Telegraph.

NEW BRITISH AIRPLANE TAKES 21 UP A MILE

Huge Machine Designed to Carry Six Machine Guns and 1,500 Pounds of Bombs.

The Aeroplane, a London publication, says a newly designed giant aeroplane in a test trip has risen to an altitude of 7,000 feet, carrying a pilot and twenty passengers.

This is the first news that the super-aeroplanes planned three months ago have been successful. Ever since the "big push" last year the British and French constructors have been developing larger and larger machines. Details of the most recent show that they have as high as 1,000 horsepower, divided between four and sometimes two water cooled motors.

The complete equipment of these giant planes calls for four and sometimes six machine guns, at least two of which are three inch. They will carry more than 1,500 pounds of bombs and have a speed of between 85 and 100 miles an hour.

This is the first time that a single aeroplane has been reported as carrying twenty-one passengers. The giant Sikorsky aeroplanes built by the Russians have carried ten and twelve, and an American type of super-hydro-aeroplane has flown successfully with the same number.

PHOSPHORUS SMOKE USED TO SAVE SHIPS

Completely Hides Fleeting Vessels From U Boats—Apparatus Displayed in Philadelphia.

The mysterious smoke apparatus with which British steamships have been provided to protect them against submarine attacks was seen for the first time several days ago in Philadelphia. Two drums are attached to the afterdeck, one on each side of the ship. Each drum is filled with phosphorus.

When the lookout sights a submarine an order is given to fire the phosphorus in the drums. Almost immediately heavy clouds of black smoke begin to pour from the phosphorus containers. The ship is entirely enveloped in the smoke and leaves such a long trail in its wake that the submarine cannot locate the fleeing merchantman. Five British vessels now in the port of Philadelphia are equipped with the "smokers."

HAS NONSINKABLE LIFEBOAT.

Philadelphia Invents New Collapsible Craft.

A collapsible, nonsinkable steel lifeboat has just been patented by Yves Andre Bouget, a native of Philadelphia, which will probably be used by the United States in case of war. The inventor has been working on the idea for three years and is planning to give demonstrations of the new craft in waters in and near Philadelphia.

The boat is supposed to be entirely different in construction from any other lifeboat and, although practically indestructible, does not take up more room than an ordinary lifeboat. The nonsinkable feature is made possible by means of two air compartments placed in the bow and stern.

London in Wartime.

Being a military nation, remarks a woman correspondent of a London paper, "makes us all so excited or something, somehow. In all my knowledge of it I've never seen London so check-a-block, never known the restaurants so crowded, theaters so prosperous, pleasure so utterly every one's objective. I suppose it's the edge of a volcano feeling. . . . Of course it's quite different outside the big cities. In the country houses there's only one thing to think about, and that's how the husbands or the sons or the lovers are getting on over there."

The president has met his critics and they are his.—Baltimore Sun.

One hundred and ninety-eight acre farm; near T. Davis' grocery, 11 miles from Newark; an ideal dairy and fruit farm; prospects of pike within one mile of farm excellent; creamery 3 miles; modern and excellent improvements; price exceptionally reasonable.

Licking County's Rural Schools Maintain a High Efficiency in Organization and Teachers' Work

Few people in the City of Newark know much about the life and activities of the county or rural schools. They are cognizant of the manner in which the city grade schools and high schools are conducted, as they can keep in closer touch with them. The pupils are children in their own homes and are living examples of the efficiency of method employed to lay the foundations of useful manhood and womanhood.

The country school of today is far advanced over those of a quarter century ago. The organization of each school in its relation to township, district and county is more vital and intimate. Instead of there being a school here and there, each independent in its organization and government, all of them are combined under one head and have the same object to attain through the same general methods.

This does not mean the loss of individuality but rather the reverse. There is a certain rivalry to attain excellence and the personality and competence of the teacher never were such prominent assets as under the present system. The teachers today have a higher standard of

making our schools worth while. A teacher must be interested in boys and girls, and also in the community at large. A teacher who can go into a community and teach school for a year and not be personally acquainted and interested in the affairs of that district can not render the services he should, neither will he get the hearty support of the people because there is no mutual understanding of the great interests involved.

In our corps of thirty-six we have few of the class who do not show an interest in the community affairs. We do notice that where we find a teacher taking the most interest in these local matters we find the

ward the rising sun and progress. As the call of duty comes they are found marching steadily and faithfully forward with the slogan "Today's efforts must be surpassed tomorrow."

Our patrons as a whole are much interested in the welfare of the rising generation. Once in a while, of course as everywhere, we meet with a man whose vision is too short to realize that what was sufficient education a generation ago will not meet the demands in these days of high cost of living and keen competition. They forget that the land that then sold for \$1.25 per acre now sells for \$125. This is not only true of land but most other things as well. To meet these new conditions we must be educated.

Such patrons are few, and most parents desire their children to receive a good education and make many sacrifices daily to give them a chance. However, this is often done with the wrong motive in view. Parents sometimes say they do not wish their children to have to work so hard as they did. The idea should be to educate that the children may be more able to render efficient social service to their fellow men.

A. A. MEAD,
Principal Jersey School.

education and more knowledge of pedagogy than ever before, gained by high school, college and normal training. The corps is doing most efficient work and is under the general supervision of Elmer W. Jordan, County Superintendent, who is a conscientious, painstaking and competent official.

That a more general knowledge of the good work being done in Licking county schools may be disseminated especially among residents of Newark city, The Advocate has arranged for the publication of a series of articles dealing with the work done in each district more in detail of which District Number 5 will be the first. This is known as Johnstown Supervision district and consists of four townships—Hartford, Jersey, Liberty, and Monroe, besides Jersey Special and the Appleton schools.

In this district we have thirty members of the boards of education interested in the welfare of 350 boys and 300 girls. We also have a splendid lot of patrons who, in the main, are interested in the schools and heartily co-operate in school affairs.

Then the vital factor is the teacher. We have in this district thirty-six faithful, sympathetic, and progressive teachers. Teachers who are willing to undergo many hardships and to sacrifice time, energy and money that they may render their best services to their schools.

The organization and membership of the Boards of Education are as follows:

Hartford Township—S. L. Barrick, president; Elmer Myers, vice president; William Hatch, Jasper Thompson, E. A. Trout, Homer Booher, Clerk.

Jersey Special—P. O. Condit, president; E. A. Scatterday vice president; Geo. H. Berger, George Smith, F. S. Beem, B. M. Harrison, Clerk.

Jersey Township—Harvey Hoover, president; Frank E. Tenor, vice president; A. V. Bevis, William Monroe, George Hewitt, Geo. H. Berger, Clerk.

Liberty Township—Earl Barber, president; Lynn Shockey, vice president; W. L. White, Charles B. Wright, John Simmons, Harry J. Riffey, Clerk.

Monroe Township—H. A. Thurston, president; Glen Blamer, vice president; Vernon Swick, Sanford Butt, Lester Piper, E. H. French, Clerk.

Bennington Township—B. S. Shipley, president; Charles Hatfield, vice president; Edgar Dennis, Frank Melick, Luther Clem, Forest R. Hall, Clerk.

These are the men who spend much of their valuable time in the interest of our schools and receive but a pittance for their services. Most of them seldom miss a meeting, and they desire to do even more than they have been able to do to make our schools better. They desire to make them places in which more efficient service may be rendered for our boys and girls. Many things they would do if it were not for lack of funds.

Let us be more willing to look upon the services of these men with a keener appreciation than we are often wont to do. Some condemn when they do things, and others condemn when they do not. The fact is these men are conscientiously using their best judgment in administering the affairs entrusted to them. Let us be more charitable towards men making so much sacrifice for the public good.

How about the teaching force? This is the one essential toward

ELMER W. JORDAN,
County Superintendent of Schools.

most hearty co-operation in school affairs and more school spirit.

The teaching force is as follows: Hartford Township—Perfect School—Cecyle Perfect, Sinkey's; Luella Denty (Olive Trout to the regret of all concerned had to resign from this school on account of sickness); Larkin—Alva G. Hatch; School Land—Mabel De Witt; Miller—Zadie Freas; Bethel—Lewis A. Denty; Case—Floyd D. Wright.

Jersey Township—Burnside—Leona Dean; Panhandle—Helen Van Atta; Beech—Nellie Hamilton; Monroe—R. G. Fisher; Lexington—Agatha Hale; Rowe—Charles Tremor; Forest Dale—Mabel Stewart; Brown—Bessie Diehl.

Liberty Township—Pleasantville—Paul Parsons; Harmony—Harmon A. Rannels, (Miss Emma McClain substituting now owing to sickness of the teacher); Concord—Earl Gleason; New Way—Floyd Gleason; Morgan—Madeline Shafter; Foster—Nellie Case.

Monroe Township—Taylor—Bernice Moore; Hill—Thomas L. Johnson; White—Augusta Tippet; Miller—Ethel L. Butt; Conway—Prennis Myer; Blue Jay—Charles Stephens; Clark—Pearl L. Baughman; County Line—Grace L. Roby.

Jersey Special has three teachers and Appleton has three whom we will mention in another place.

Of this teaching force all excepting three are High School graduates, and these three took two or three years in the H. S. and have done enough normal and college work besides to be practically the equivalent of a first or second grade High School course.

The following High Schools are represented as follows in our teaching force: Hebron, Homer, Frazeeburg, West Carlisle, each with one; Granville, Summit, and Alexandria each with two; Jersey, five; Hartford, nine; Johnstown, thirteen.

All excepting two have had at least six weeks' normal training. The following schools are represented in the normal and college training: Pataskala County Normal, Otterbein, Ohio, Kent, Ohio Northern, Denison, Bethany, Berea (Ken.), Tennessee State Normal, Wooster, Angola (Ind.) and Ohio State.

One of the pleasant features about the work of the district is the harmonious co-operation between the teachers and the superintendent. Possibly this is partially explained because of a good understanding of plans, purposes and general ideas toward subjects learned through classroom work. Twenty-seven of the thirty-eight (counting the substitute teachers) have been under the instruction of the superintendent, either in H. S. or in the Denison Summer schools. However the same spirit of good will and loyalty is found among the other teachers as well.

All the teachers are reading good educational journals, and most of them are reading part or all of the O. T. R. C. work.

The faces of the teachers of Supervision District, No. 5, are set to

DRINK HABIT

RELIABLE HOME TREATMENT

The ORRINE treatment for the Drink Habit can be used with absolute confidence. It destroys all desire for whiskey, beer or other alcoholic stimulants. Thousands have successfully used it and have been restored to lives of sobriety and usefulness. Can be given secretly. Costs only \$1.00 per box. If you fail to get results from ORRINE after a trial, your money will be refunded. Ask for free booklet telling all about ORRINE.

Frank D. Hall, North Side Square.

L. C. BROWN,
Principal Johnstown School.

Train for service, and not for leisure, should be our aim.

Then our boys and girls of the district, for many and womanly boys and girls we will put them up against any others. They are wide-awake young people of the "best type." As a rule you find them eager to learn and courteous in their conduct. We vouch for the efforts and success of our boys and girls.

SCHOOL LIBRARY IS GREAT ASSET WHEN WELL USED

One of the great assets of a successful school is to have a good usable library. Too many of our school libraries are filled with books more suitable for college students and society folks than for boys and girls of the rural schools.

Possibly this subject may be sort of a hobby of ours, however, if it is, we have no apologies to offer. Our schools in the past three years of supervision have made wonderful progress in this line. A few schools had fairly good libraries started, but several schools had none. Now, we have but two schools without libraries. One of these had been suspended until this year for two or three years, and the other is on the verge of being suspended due to low attendance.

Our aim we have in view is to first, get all schools equipped with standard libraries. We shall be disappointed if every school is not so equipped next year.

Possibly it will be well to explain what is meant by a rural school standard library. Such a library consists of at least fifty well-bound volumes classified as follows: Agricultural; Elementary Science; 5: History; 5: History Stories; 2: Ohio History; 2: Biography; 10: Poetry; 4: Fiction; 5: Miscellaneous. 12.

The following schools have, or have definitely arranged for, standard libraries:

Liberty township—Pleasantville, Dutch Lane.

Hartford township—Perfect, Larkin and School Land.

Monroe township—White, Clark, Miller and Conway.

Jersey township—Forest Dale, Burnside, Beech, Brown and Lexington.

Several others will likely reach the standard before school closes for this year.

Nearly four hundred volumes have been put into the schools this year, and about the same number last year with possibly two hundred the first year. In some schools it has practically revolutionized the spirit of the school.

Socials and entertainments of various kinds have been the usual means for raising funds.

A few schools, in which the library fell but a few books short of the required number, by each family contributing an equal share. In each case the patrons responded most heartily.

Every school in Jersey township has had a social this year and succeeded in raising about \$70 for organs and libraries. Each of the other townships have raised some in this way. Hartford had three and raised about \$30; Monroe three and netted about \$30; Liberty, two, on two of the worst nights of the year. They netted about \$10. Appleton had an entertainment and a social on different nights and netted

about \$30; Jersey, special, one, and netted about \$16.

Some books will be mentioned in another article, but we desire to mention a few exceptionally good books: "Elementary Agriculture," Nida; "How Man Conquered Nature," "Stories of Pioneer Life," by Bass; "Poems for Studying and Memorizing"; "Long's American Poems"; "Honey Sweet"; "Little Nell," Heidil; "Five Little Peppers, and How They Grew"; "When Great Folks Were Little Folks"; "The Outdoor Primer"; "Toby Tyler"; and "Bears of Blue River."

The last two especially, please the boys.

One thing that should never be overlooked in selecting books, and that is to put in some books for primary and intermediate grades.

Look well to your libraries. Do not neglect to make good use of them.

SCHOOL LAND PURCHASED FROM U. S. GOVERNMENT

Ohio entered the union in 1803. It was divided into counties, the counties into townships and the townships likewise divided into sections.

It is of the western half of Hartford township, located in the northwestern part of Licking county that we are now concerned.

Hartford township when first settled was divided into halves. The eastern half was taken up by different people at a small price per acre and settled in the usual way. The western half, or School Land, granted by U. S. for school purposes, was leased for a time but later was sold by the government for school purposes. Settlers bought the land of the government for one dollar and twenty-five cents an acre and placed the money in the school funds of the U. S. Military Lands from which fund we receive interest each year to help support schools. In later years only the northwest one fourth was known as School Land and at the present time all that is spoken of as School Land is the church and school and surrounding community.

There is little or no Indian history connected with the district though evidences of their having been here has been often noted.

School Land is a gentle sloping country with but few high elevations, the highest being where Columbus Canaday now lives just a few steps from the school house.

Though a small stretch of land, its drainage is far reaching, as the Otter Fork of Licking River drains eastern part, and the western part drains to Big Walnut and thence to Scioto River.

When the School Land district was first settled, claims were taken up by following persons: Tommy Harris took the claim where Dr. Mills now lives; John Leamon where B. Jackson now owns; John Bell where Jagger Robinson now lives; James Biggs, Sr., where C. Boyd lives; Joshua Harris where Mark Harris lives; Jessie Higgins where Edd Boyd lives; L. Huffman what is now the Will Brown farm; the claim taken by L. Wiley is still in the Wiley name, as is also the claim taken by Wm. Potter still in the Potter name. The claim taken by J. Leamon is now owned by J. O. Curry; J. Hupp took the claim where Frank Burrell now lives; S. Spear where W. DeWitt lives; D. & J. Ross the Cunningham farm and Stephen Vaness the Buel farm.

These people were very industrious and cultivated about the same crops as we do now, with the exception of flax and sorghum. They had within their reach a cane mill, on what is now the Glen Willison farm, a store, postoffice, shoe and harness shop on what is now the Wm. DeWitt farm. They also had a school and church.

The first log cabin in the community was built by Zemeriah Webb in year 1829, just east of where the church now stands. A few years later it was moved from there to a place about one-half mile farther west, where it stood until the summer of 1914, when it was burned to be gotten rid of. There is not more than one log cabin now standing in School Land district and that is just a short distance from the Knox county line.

The first school house was built of logs not far from where the schoolhouse now stands. In 1853 it was replaced with a frame building and in 1884 another frame building was erected which is still in use. Jacob Leamon is the only teacher we have record of who taught in the log building. Since 1858 the teachers for the next twenty or thirty years were, Mrs. Eliza Edelblute Hatfield (now over eighty years old), Wm. Sadler, Lucy Allen, John Peck, Perry Pierce, Minnie Fallow, Wm. Barto, Hannah Fallett, Thomas Sadler, Sarah Alder, Irene Clark, Julia Alder, Allie Van Fossen, Mattie Moore, Mary Connard, Della Leamon, Clara Leamon, Emma Duke and Truman Peck. Miss Philbrook, Sarah Higgins and Henry Graham.

In the year 1855 Nathan Yearley Sr. leased the land where the church now stands to the Universalist denomination for ninety-nine years, stating in the lease that the Christian denominations who held services in the school house at that time or any other church service should be held in said house at any time when Universalists were not using it. There were only about twenty members of the Universalist church. John Strong, Mr. Bins and Mr. Woodberry filled the pulpit at different times. The organization finally abandoned the church and gave way to the Dunkard people who had been holding meetings in private homes. They believed about as the Christian people now do except in baptism. Later the Christian denomination held regular meetings once a month. There was at one time a membership of seventy-five. Because of the death of many of the older members and the younger ones going west they ceased having regular preaching services about twenty-five years ago, but continued having a union Sunday school for some years with Smith

(Continued on Page 8, Col. 1.)

LICKING COUNTY'S RURAL SCHOOLS

(Continued from Page 7.)

Ketchum of Condit, E. J. Post and J. L. Beames acting as superintendents at different times.

One of the first ministers who had charge of the work here was Robert Chase, who preached once a month for eleven years, without missing an appointment. He came on horseback. His preaching was in the fifties, when roads were not as good as now.

Some of the preachers for the Christian denomination were: Wm. Malville, James Marvin, Mr. Christian, Wm. Overturn, Andy Hanger, Wm. Webb, Enos Peters and Wm. Dobbins.

Later the Sunday school dropped and was not begun again until the church was reconstructed and rededicated in the summer of 1913. Mrs. Geo. Davidson is the only living person who attended both dedications.

Our first minister after rededication was Rev. H. J. Duckworth, then P. O. Ott, H. D. Wickens and now Rev. Marshall Gray, who seems to enjoy his work with the School Land people.

Such is the history of School Land. Those who have lived here and helped make this history will not willingly cast it from their memory. Yet we know humanity sweeps onward; what is today will soon be past. And—

"The hooting mob of yesterday in silent awe return
To glean up the scattered ashes into history's golden urn."

MABEL DEWITT.

Teacher of School Land School.

APPLETON HAS SMALL

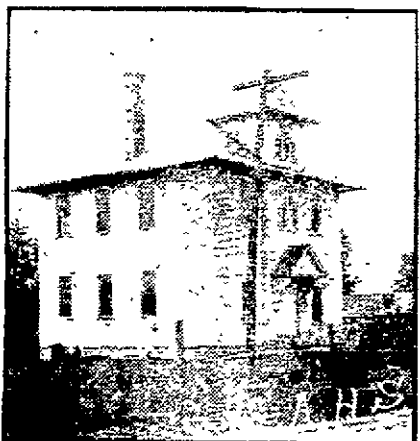

SCHOOL, WORK IS GOOD

The school at Appleton is not large, but the quality of work is good. We believe that a community so located deserves just as able instruction and just as good school privileges as if it were a much larger place. The fact is, the boys and girls have the same competition to meet in life that others do. Would any one think for a moment of depriving them of a chance to prepare themselves to meet this competition well and to be qualified in every way to fill their places in society.

This school has three departments—the Primary, in charge of Miss Gertrude Sutton of Johnston. She is most successfully directing the first years of about 25 boys and girls.

The Grammar department of the fifth, sixth and seventh grades is doing nicely under the instruction of Miss Lola M. Hall. There are 17 pupils in these grades.

Mr. Mikesell has charge of the High school and eighth grade (in part), with a total enrollment of 12.

APPLETON HIGH SCHOOL.
Mr. Alva G. Mikesell, Principal.

We will again let the High school inspector, Prof. Twiss, comment on the work of the High school.

"On Nov. 8 I inspected the Dennington township High school. I found the work of teacher and pupils of a creditable quality, and the building has been put in fine shape, a fact which constitutes much toward good work, refinement and good school spirit."

Two schools are being hauled into Appleton.

Among other good things, Appleton schools, assisted by good, progressive citizens, annually put on a good Lyceum course for the community. Nothing builds up public spirit for better things any faster.

As we look at the beautiful homes and farms, with their broad fields covered with different kinds of vegetation, we can hardly realize that one hundred years ago the whole community about Appleton was a vast wilderness of huge oaks, beech, walnut, and many other varieties of large trees, with an undergrowth of shrubbery, among which might be seen the wolf seeking his prey of the smaller wild animals, or the deer timidly dodging among the trees.

How interesting it is to hear Uncle Daniel Van Fossen or Aunt Phoebe Shaffer, two old school masters, both born and raised near Appleton, now past four-score, tell of their early homes and schools. They seem to be as a couple belonging to a former generation, knowing all the hardships and privations that were a reality to them in the early days of our life as it is today.

Mr. Van Fossen says his parents, with three other families, came to this state from Augusta county, Virginia, in the year 1811, and settled on a claim between where Appleton is now located and Croton. After staying on the land for six years, his father concluded to move farther west and changed his way to the farm where Uncle Daniel is still living. At that time there were only three other families living near two south and one north of where the village now stands.

forest. Mr. Van Fossen tells of his father following the trail back to Utah, where he went to mill.

As everybody was compelled to take his turn, and there were several ahead of Mr. Van Fossen, it was dark when he started for home. After traveling for some time, he discovered he was back to a place where he had been before, and that he had been traveling in a circle instead of going straight for home. So, being lost, he was compelled to spend a lonely night in the woods, waiting for daylight, that he might find his way out.

Soon after Mr. Van Fossen moved to this settlement, they built the first school building at Appleton. It was a log structure, located on the first lot north of the present school ground. The benches were long slabs with wooden pegs for legs. The desks were broad boards fastened to the walls. In order to do writing or ciphering, the scholars were compelled to turn around on the bench and face the wall.

The building was heated by a huge fireplace in one end and a large nine plate stove in the center. Fuel was no object.

Mr. Van Fossen, when asked the name of his first teacher, said the first winter he came to school, he and his brother were caught whispering. The teacher, calling them on the floor, sent another boy after a stick, and while waiting for this boy to return, is when, he supposes, he forgot the teacher's name. But we have found out since the teacher's name was Kerr.

Soon after the log school house was erected, a couple of dwelling houses were built. In August, 1822, by Titus Knox and Cary Meade and the place was named Appleton, in honor of Appleton, owner of much of the land surrounding the place. The next building to be erected was a store building by a man by the name of Messenger, who employed as a clerk a kind, industrious young fellow by the name of Rosecrans, who afterwards became our Rosecrans of the Civil War.

Finally, after more people settled in the community, a new frame school building was erected on the bank just west of the village. This building served its purpose until 1870, when a second and better frame building was erected on the lot where the present two-story, three-room building took its place. This building answers the purpose of a school house for a little village very nicely, but it is not what we hope for in the future.

We look forward to the time when we will have a modern school building, with long rows of windows throwing light on cheerful boys and girls, seated in comfortable seats, studying practical subjects and learning the great lessons of brotherly love which will make the ideal citizen of the future. In this new building we would not forget our Auditorium, or community center room, where we can hold our lecture courses, farmers' institutes, corn shows, literary society, or anything else you can think of, for the betterment of the community. This is the building we will feel like placing the American flag over and saying, "This is the kind of Americanism for which we stand."

SCHOOL ROOM AT NEW WAY HAS A CHEERFUL LOOK

(By Floyd Gleason, Teacher at New Way)

In looking over the small villages of Licking county we find one which we must not overlook. This little village is New Way, situated about six miles northwest of Granville and about six miles east of Johnston.

Looking back to days gone by before the rural mail carriers began to carry the mail over the county, New Way had a postoffice and the people in the vicinity went to the village for their mail. The mail carrier at that time started from Sunbury, Ohio, and went through New Way and then on to Newark. It was later changed and he started from Croton, Ohio, and went through New Way and then on to Newark. It was later changed and he started from Croton. When the rural route started the old way was discontinued and they adopted the new.

New Way is located on a hill. It consists of several dwellings, and is in the heart of an agricultural district; also in the gas field. New wells are being drilled and the farm-

New Way School House.

ers have the advantage of gas for heat and light. There is a church, a school, and a blacksmith shop in New Way. New Way is about two miles south of the Johnston and Utica pike.

Another fact which may interest some readers is the fact that the highest point in the county is about one-half mile west of New Way, on the Johnston, Fremont and New York road. It is on the old Road to a farm, now owned by a W. S. D. Where the land really is high, a point stands a large tree, a lot of feet from the line, and between the farms of Mr. C. W. New and that of Mr. Warner Summers, of Columbus. The tree can be seen from the road, because the highest point is only a few rods from the road.

In New Way and the vicinity, we find a great many people who have reached their three score and ten years. I expect we would find as many if not more old people than

around any other village the same size.

The school building which is in the village is built on the new, up to date plan. The old building was destroyed by fire two years ago. The new building was built in 1915. The main room of the building contains thirty seats all but four being occupied this year. There are four large windows to the south of the room, the light coming in to the backs of the pupils. There are no windows at the other sides of the main room, only one door in the rear. Besides the main room, there is a cloak room, seven feet by eighteen and one-half feet, containing hooks and shelves for lunch baskets, etc. In this room is a table used in experimental work of the different studies. This room has two doorways from the main room, two windows on the east. The library is built in the wall between the main room and the cloak room. There is also a small room at the entrance of the building, in which overshoes may be left, and this room also prevents the cold from entering with the pupils. The school room is heated by a Columbus heating and ventilating stove. There are thirty-two feet of good slate blackboard set low on the wall.

Another fact which may be of interest. About one-half mile south of New Way is an old swamp. In days gone by when this country was inhabited by the Indians, according to tradition, a battle was fought in and around this swamp. An old sword was found by settlers of this vicinity also many arrow points and broken arrows. There have been many traces found which show that there were Indians in this neighborhood in years gone by.

JERSEY SCHOOL MAINTAINS A VERY FINE RECORD

The Jersey schools whose history has been well written by an alumnus is endeavoring to keep up her good record and to improve as the years go by.

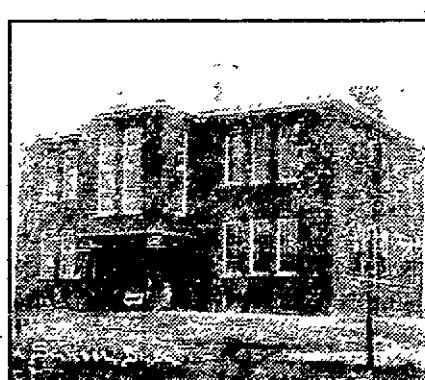

The school consists of three departments: Primary, Grammar and High School.

The Primary has an enrollment of forty pupils and is well taught by Miss Dorothy M. Jones whose home is near Granville.

The Grammar Department is under the instruction of Miss Nellie B. Fairall of near Newark. Miss Fairall has nineteen happy boys and girls in the fifth, sixth and seventh grades.

The High School is of the Second Grade under the Principalship of Mr. A. A. Mead, ably assisted by Miss Gertrude Beem. The enrollment of the High School and eighth grade is twenty-eight. Possibly the statement of the High School Inspector will explain the quality of work being done. Prof. Twiss' statement relative to the teachers was as follows: "The Jersey High School was inspected November 9, 1916. We find that the school is in good hands, and good work is being done by teachers and pupils."

One school wagon brings the pupils from the old Union District which a few years ago was annexed

JERSEY SCHOOL BUILDING.
A. A. Mead, Principal.

to the Special District. Work in the departments goes well at Jersey.

The schools of Jersey led by Principal Mead and backed by such public spirited men as the two young merchants, Mr. Clytus Wilkin and Mr. Grover Keller, and the Rev. Kerns-Preston are putting on a most splendid Lyceum Course.

A Lyceum Course is a great community builder. As a result of a recent lecture by S. F. Fannon there has been a Brass Band, a Girls' Glee Club and a Camp Fire organized.

The Jersey citizens show the proper spirit by almost unanimously supporting the course.

JERSEY HIGH SCHOOL

Mr. A. M. Beem, Class '91.

Space permits of but a brief history, hence we skip the baboon and ape period and begin our ancestry in the Garden of Eden, with botany as the only recorded study.

Their game of life must have been somewhat like our modern football game for we read where "Cain killed Abel."

Horace Greely's advice was taken prematurely as the tribes scattered westward—our especial family landing on Jersey Isle in the English Channel—just south of the North pole.

In 1633 realizing America meant opportunity we landed in New Jersey, spending the greater part of two centuries spreading our progressive zeal through the Atlantic States, nursing with tender care the early stages of our beloved, Cambridge, Harvard and Yale.

In 1815 some of our New Jersey friends discovered a newer Jersey—our "Home, Sweet Home," where it would seem educational palaces were neglected for four years as our first school house was built in 1819.

Tradition differs as to the location of this building. It was either a few rods southeast of the present home of Mr. Joseph Fravel, or about one-half way between Mr. Bert Allen's residence and the late Mr. Eben Condit dwelling. It was of the old log cabin pattern, with the crisscross paper window lights allowing the sunlight to find its way to the split wooden benches. Finished in the best oak splinter fashion. Either building was of short duration for very soon after this the school held session in a special room of a private dwelling just a

few rods north of the large barn on the above Condit farm.

Tradition also wanders over the honor of our first teacher; it either being Mr. Benjamin A. Ward or a Miss Williamson.

Our second building, made of hewn logs, stood in what is now the Cemetery lot. Records show that here in the summer of 1835 a Miss Ann Farber taught school at the rate of \$1.50 per month.

Our 3rd effort was a frame building 20x26, erected in 1836. It is here we first realized the teacher was not receiving salary enough as Miss Caroline Carter received the liberal wages of \$1.75 per month for the first term taught in this building.

Our fourth building was erected in 1856, located just southwest of the Presbyterian church. It was 26x36 and was used until 1870 when the Jersey Independent District was formed and another story placed upon the building of 1856, thus revealing the old familiar building that many of us are connected with by pleasant memories too sweet to be erased. The timber of this building today forms the frame work of the main part of Mr. Burton Keyes' dwelling.

For years Jersey yearned for a High School and a graduating class; as far back as 1875-80, when a class of Mr. Al Condit and Mr. Barton edgerly gave a little entertainment they tried to imagine it was a commencement exercise. Again in 1885-5 we advanced another step—organized a course of study and a graduating class, renting the lower room of the old I. O. O. F. Hall to hold the expansion; but just as the graduating chick broke the shell the hen left the nest and it was not until June 5, 1891 that the chick came out and crowded the joyful news that Jersey—our Jersey had a High School with a class graduating in the common branches—bookkeeping and algebra thrown in.

Just prior to this, 1890, a new two-room building was erected upon the site of our present school building. A third room was added to this building in 1899, which accommodated our growth until our present four-room building of 1912.

Owing to the severity of the course of 1891, no other class graduated for ten years, but each year since 1901, we've had a graduating class and today we stand as not the poorest second grade High school in the state—and it doth not yet appear what we shall be."

SCHOOL HOUSE IS LOCATED WHERE BEAVERS BUILT

It may be a surprise to some of the people of Licking county to know that there were once beavers in our county.

About eighteen miles northwest of Newark or a mile and a half east of Johnston, there is a lake which was formed by beavers. If you were to go to this lake you would see where the beavers have built a dam, which holds the water. Around the banks are small mounds where the beavers had their houses. The lake is about sixty rods long and twenty rods wide, containing between nine and ten acres.

In the back part of the picture can be seen an old building, where the farmers put up ice many years ago. In front of the building is the beaver dam. To the left of the building are some holes in the bank which were made by the beavers in building their houses. The lake is inhabited by many fish, mostly carp. A few years ago the dam broke and many hundred fish went through. It was discovered a few hours afterwards and the boys of the vicinity took buckets and even sacks and hustled to the lake, where they caught fish without hook and line. The largest fish captured weighed about five pounds. The largest fish known to have been taken from the lake was a carp captured by Mr. Allen Longwell, which weighed about 12 pounds. The lake being fed by springs does not get stagnant in the hot days of summer like most small lakes.

Many years ago forests covered the land around the lake and the boys of the neighborhood would go three to hunt. They tell of chasing wild turkeys through the swamp, for the lake was then full of trees and bushes, and made good place for them to hide. In the winter the boys would chase many raccoon and opossum into the swamp but could not get them very easily.

There are also other places in the vicinity of Beaver lake where there

Beaver Lake, Liberty Township.

have been beavers. The remains of their mounds are plowed through in breaking up the new ground. The trunks of good sized trees, used by the beavers and showing where the beavers had cut them down with their sharp teeth, are sometimes unearthed and other evidences of this interesting and valuable animal are frequently encountered.

These are simply remnants of former days and conditions and show that with time and civilization come many interesting and mysterious changes.

"HOW THE SCHOOL LIBRARY HAS HELPED ME"

(Ethel L. Burt, Miller School, Monroeville Township.)

The question is often asked, "Are library books of any benefit to our schools?" I am sure that all teachers will agree that they are a great benefit to both teachers and pupils.

First of all they have awakened a desire in the pupils for good literature. If our schools are equipped with a good library of suitable books a great many of our boys and girls are going to have a greater appreciation of books.

TURKISH EMPIRE FALLING INTO FOES' HANDS AS ANCIENT BAGDAD NEARS FALL

This map shows not only the proportion of the Turkish empire now occupied by invaders, but also the direction from which the three attacks now going on are operating. From the southwest, the British advancing from Egypt over the Sinai desert are at the borders of Palestine—if indeed they are not already well on the road to Jerusalem, the official reports having been ambiguous. The British army in Mesopotamia is at the very gates of ancient Bagdad.

Splendid for Bad Coughs, Colds, Bronchitis

An Inexpensive Home-Made Remedy—Gives Quick, Quickest Relief.

Anyone who tries this pleasant tasting home-made cough syrup, will quickly understand why it is used in more homes in the United States and Canada than any other cough remedy. The way it takes hold of an obstinate cough, giving immediate relief, will make you regret that you never tried it before. It is a truly dependable cough remedy that should be kept handy in every home, to use at the first sign of a cough during the night or day time.

Any druggist can supply you with 21¢ ounces of Pinex (50 cents worth). Pour this into a pint bottle and fill the bottle with plain granulated sugar syrup. The total cost is about 54 cents and you have a full pint of the most effective remedy you ever used.

The quick, lasting relief you get from this excellent cough syrup will really surprise you. It promptly heals the inflamed membranes that line the throat and air passages, stops the annoying throat tickle, loosens the phlegm, and soon your cough stops entirely. Splendid for bronchitis, croup, whooping cough and bronchial asthma.

Pinex is a highly concentrated compound of Norway pine extract combined with guaiaecol and is famous the world over for its healing effect on the membranes.

To avoid disappointment ask for "21¢ ounces of Pinex" with full directions and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

MAYOR'S PROCLAMATION

For the Closing of Saloons on Election Day.

According to Section 4841 of the General Code of Ohio, three days previous to and on the day of election, the Mayor shall issue a proclamation to the public, setting forth therein the substance of the enactment to prohibit the sale of intoxicating liquors upon that day, and he shall take proper measures for the enforcement of the enactment.

Therefore, in pursuance of such enactment, I declare that Tuesday, March 13th, has been set apart as a day of election at which election there will be submitted to the electors, the question, "Shall a Commission be chosen to frame a Charter for the City of Newark, O., and there will be chosen at said election fifteen electors from the municipality at large, to frame such charter. If the question carries in the affirmative, all saloons and places where intoxicating liquors are sold shall be closed between the hours of 5:30 a. m. and 5:30 p. m., and any violation of this proclamation will be punished as the law prescribes.

March 10th, 1917.

R. C. HIGHER, Mayor.

ADVOCATE CLASSIFIED ADS BRING RESULTS

This Simple Laxative A Household Necessity

Dr. Caldwell's Syrup Pepsin Should
Have a Place in Every Home.

Constipation, or inaction of the bowels, a condition that nearly everyone experiences with more or less frequency, is the direct cause of much disease. When the bowels become clogged with refuse from the stomach, foul gases and poisons are generated, and unless the congestion is quickly relieved the system becomes weakened and most susceptible to attack.

Various remedies to relieve constipation are prescribed, but many of these contain cathartic or purgative agents that are harsh and violent in their action and shock the system. The most effective remedy is the combination of simple laxative herbs with pepsin that is sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin.

The Hon. John D. Keister of Brandywine, W. Va., who has represented his district in the State Legislature for six years, writes that he uses Dr. Caldwell's Syrup Pepsin and finds it a splendid laxative, easy to take and mild, yet positive, in its action, and that it should be in every household for use when needed.

Dr. Caldwell's Syrup Pepsin is sold by druggists in all parts of the United States and costs only fifty cents a bottle. It contains no opiate or narcotic drug, does not gripe, and is recommended as a family laxative,

mild enough for the unsexed babe, yet sufficiently powerful to act easily on the strongest constitution.

To avoid imitations and ineffective substitutes be sure to get Dr. Caldwell's Syrup Pepsin. See that a fac-simile of Dr. Caldwell's signature and his portrait appear on the yellow carton in which the bottle is packed. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 435 Washington St., Monticello, Illinois.

LICKING COUNTY'S RURAL SCHOOLS

(Continued from Page 8.)

clation for good literature than they would if it were otherwise.

In the study of history, we have used our library books to a very good advantage. I have found in my experience of teaching history, the more we can get our pupils to do outside reading, the better they understand the text.

When we come to certain parts in history where only a brief sketch is given of some great event, then I refer my boys and girls to books in their library which give them a much broader view of the subject than they could possibly get from just merely studying their lessons. The book "Epochs in American History" is a fine book in studying the various wars. It gives full and accurate descriptions of the most important battles which proves a fine thing to young students of history. "Side Lights on American History" is also another good reference book which I have used to a great advantage with the older pupils. We have a number of good books on the lives of our great men written in simple language so that nearly all of the grade pupils can read and understand some of the great deeds of these men. I have found that books on poetry are very helpful in the study of all subjects. There is always a time in some subject which we are teaching when a good poem is very helpful. I usually use such poems for a reading or language lesson.

Our text books in agriculture are far too brief to enable us to teach the subject as thoroughly as we would like to teach it. I have supplemented different books from our library on this subject and have seen a great deal of good derived from it. Nida's "Elementary Agriculture" is excellent.

Books on birds and animals can be used for reading and language lessons, and at the same time the pupils are learning a great deal about nature's children and how to care for their animals at home. "Cats in a Zoo" and "Birds and Their Nestings" are two very interesting books of this type.

The books on the children of other countries give our children a fine idea of how they live. I find if these books are read in keeping with the seasons they are more appreciated by our listeners. During the past few weeks, when the ground was covered with snow and ice, I read the "Es kimo Twins" to my primary language class and the interest and enthusiasm was amazing.

I am sure that we, who are fortunate enough to have a good library, appreciate it so much that we are all willing to do all we can to add more books each year, that our boys and girls may have a broader view of the outside world.

VALUE OF A SCHOOL LIBRARY TO THE RURAL COMMUNITY.

(By Prentiss Meyer, Conway School)

To one who has never labored, either as a teacher or a pupil, without the benefit of a school library, its true value cannot be realized. Even the small library of only a few good volumes is of almost inestimable value to the school, and also, to the community.

Especially in the community, where there is no Sunday school or church, the library is very helpful. The high-standard books are passed out to the socially-starved people, and while they amuse and entertain at the same time, they help form ideals of morality, of beauty and of usefulness. It is not only the younger people that are reached, in this way, for the parents are interested, too. In the average library, there is usually literature to suit any taste. For the school work, a very minute of fact, fiction, poetry, elementary science, nature study and general information is opened to which the teacher can direct her pupils in their varied tasks. In this way the mind of the child is developed among many lines.

It is a well-known fact that Abraham Lincoln received much of the inspiration of his noble life from reading and re-reading in his youth the bible and a few other choice books. Is it not, then, worth the effort of any teacher to place before her pupils, books that are the key that unlocks the door to a broader and fuller life than they would otherwise enjoy?

SOME TEST QUESTIONS.

Possibly some of the girls and boys of other sections of the county would be interested in knowing what some of the examination lists for eighth grade pupils in our district were, and to see how they compare with theirs.

If they think these lists are easier than theirs they might try writing them out, or possibly they may think

them too difficult, if so they might try them and may find them not so difficult after all.

Here are the questions used in our district for the mid-year test in January, in the subjects of orthography, geography and agriculture.

Geography Test.

1. Tell what you can about the movements of the earth and tell what results from each movement.
2. If the earth was once a smooth melted mass or ball why is it so uneven now?
3. How does the surface and location of a country influence the people who inhabit it?
4. Speak of the different industries in the different part of the United States.
5. Why has the United States become such a great country?
6. Give some advantages in living east of the Mississippi river over living west of the Mississippi river.
- 7-8. How does Canada compare with U. S. in size, population, climate, products and industries? How is Canada governed?
- 9-10. Make an outline map of North America, locating and naming the different countries, principal mountains, Great Lakes, eight rivers and Ohio.

Orthography.

1. Name the sounds of "a" and give words to illustrate each.
2. (a) What are the sounds of "c"? Illustrate with words and mark them.
- (b) What sounds has "g"? Illustrate with marked words.
3. Mark all the letters you can in these words: repair, secure, stages, alone, contain.
4. Name the sounds of "i" and illustrate with words.
- 5-10. Spell: isthmus, nominative, indicative, business, selection, antecedent, Lafayette, crochet, ventilation, arithmetic, strait, atmosphere, classical, bulletin, Poland, China, Pennsylvania, Louisiana, conclusion, succeed, surprise.

Agriculture.

1. Tell how to select seed corn, keep it, and how to plant and cultivate the crop.
2. What are some of the ways we propagate plants?
3. Name some valuable birds and tell some facts about the life of one of the most important ones.
4. (a) How are some insects useful to man?
- (b) Name some that are injurious to our crops.
5. Discuss the care of poultry and name five breeds of chickens.
6. What are some things that would make farm life more pleasant?
7. Describe two experiments you performed in agriculture and tell the object of each.
8. (a) What is the Babcock test?
- (b) Of what benefit is it to farmers?
9. (a) What are the uses of feed?
- (b) What is a balanced ration?
10. Do we use the same method of treatment for all kinds of insects? Explain.

DISTRICT WRITING CONTEST.

In October the pupils of the grades were asked to write something, to be compared with that of all the other pupils in corresponding grades of the supervision district. The first and second grades wrote ten lines from a given copy, all using pencils and writing same letters in the copy.

The third, fourth, and fifth grades, using pen and ink, were given this little stanza to write twice on the page:

"The rain is raining all around,
It falls on field and tree;
It rains on the umbrellas here,
And on the ships at sea."

—Robert Louis Stevenson.

The sixth, seventh and eighth

grades wrote letters about their schools.

These specimens are kept by the Superintendent, and early in April, on a given day, the pupils will be asked to write again. This second writing will be compared with the first in each grade and the pupils in each grade in the supervision district making the most improvement will be given a prize. Prizes may be given to the best in each grade in each township. This is not definitely decided.

A PARODY.

Have you ever tried your pupils on writing a parody on some favorite popular poem? It serves as a good mental gymnastic, if nothing else. It would also do much toward teaching poetic form and rhythm. Here is a parody that will illustrate and give some suggestion at least:

Parody on The Swing.

How do you like to go through the fields,
Out through the fields so brown?
Oh, I do think it is the most pleasant trip
To go out on the hills up and down.

Down through the fields and over the hills,
Till I can see so wide;
Trees and creeks—and cattle and all,
All over the country side.

Till I look down on the valleys green,
And down on the water so blue;
Oh, I do think it is the most joyful thing
That ever I could do.
—Elsie, Shaul, Concord School.

At no time except at Christmas is the world so happy as at Easter. The universal observance of these two festivals is a witness to the vitality and power of the truths for which they stand. The Christmas truth is that God has revealed himself in human life; Easter expresses our assurance of immortality.

These truths in combination and the consequences that follow from their acceptance may be said to equal the sum total of human happiness. Banish brotherhood and the result is social chaos. Conceive of death as the end-all and we are of all creatures the most miserable.

It is true that here and there a brave man marches breast forward, doubting whether, after all, there is a hereafter, yet grimly determined to play at all hazards a noble part. All honor to him, but his philosophy will not suffice for the rest of us.

"If the dead rise not," most of us will say, "let us eat and drink, for tomorrow we die." We crave certainty as to the future, and nothing but such a certainty can influence our present conduct. In the search for certainty some of us are able to find in the voice of authority the assurance that we need.

Some of us can hope so intensely for immortality that we give substance to the thing we hope for, and this becomes our faith. Others of us, however, cannot believe merely because we are hidden to believe or because we wish to do so. We are eager of assurance, but to be satisfying it must be a reasonable assurance.

How to Dye the Eggs.

The best method is to dye your eggs just before breakfast or before you want to serve them. If your dyes are all ready and you have read over your directions beforehand you need allow only ten or fifteen minutes for the task. Have your dyes ready in old teacups. Green, light blue, orange, rose red, purple, pink, yellow and scarlet are the usual colors. Cook your eggs to the desired degree of hardness and then quickly drop them from the boiling water into the hot dye and as soon as they have taken the desired hue remove them from the dye and place in the dish from which they are to be served.

Muggins — "Don't complain that he never has a show." Buggins — "That's because he is always waiting for a free pass."

Pretty as a Picture— Every sign of Wrinkles and Complexion Blemishes gone!

How a muddy, sallow, aging skin can be made wonderfully youthful and beautiful through remarkable discovery of osmosis of the skin.

Grace Valentine
Beautiful Metro Picture Star

When you see a woman past thirty with no horrid crow's feet or pouches around her eyes, no enlarged nose pores, no deep lines or furrows about the mouth, and possessed of a clear, velvety complexion, you can be practically certain that she knows beauty secrets not possessed by the average woman. She may have as much cause for looking old and careworn as anybody, yet she is able to go on year after year, with never a sign of wrinkles or complexion blemishes, all the while preserving a fresh, youthful appearance. And there is really no reason why any woman between thirty and sixty should not look from five to fifteen years younger than she really is, by simply knowing the secret of just what to do. It ought to be a matter of pride with you to keep your complexion clear and your face youthful as much as it is to keep your hair and nails clean. But you cannot hope to be beautiful and attractive unless you give your skin full opportunity to act freely and renew its youth. No matter what your skin, no matter how coarse, harsh and unsightly your complexion, nor what you have tried unsuccessfully, the moment you produce osmosis of the skin, you will look younger and far more beautiful. Man, a wrinkled, faded-looking woman has regained her charm and youthfulness by finding herself pretty as a picture with every sign of wrinkles and complexion blemishes gone through this wonderful, simple method. Watch what it does for you!

Merely wash your face with warm water at night and rub in a teaspoonful of two of any good rose-scented cream which you can obtain from the druggist. In the morning wash the face with cold water, and rub in more cream. In three weeks or less you will be astonished at the change that has taken place. See how the old, hardened, coarse, rough skin turns into new, fresh, soft, youthful-looking skin almost before your very eyes, all due to simple osmosis of the skin, produced solely by warm water and rose-scented cream. But be sure to use only pure rose-scented cream, as it is an entirely different thing from ordinary face creams, and must not be confused with them. Most women prefer Creme Tokalon Roseated. If you have wrinkles, get a box of Japanese Ice Pencils and use them in connection with the cream and you can get quick action on the deepest wrinkles, no matter of how long standing. For giving an indescribably beautiful effect to the neck and arms as well as sup- pressing almost immediately the appearance of all smaller wrinkles and marks on face, many women use a little of the Santonex in connection with this method of producing skin osmosis.

The above is one of a series of articles on beauty specially written by Mlle. Simone Marex, of Paris, winner of two great international beauty prizes, one in Paris, the other in England. Mlle. Marex personally guarantees success in every case with the products recommended in her newspaper articles on beauty. She has written and provided you take your dealer's receipt at the time you make your purchase. Her American address is Simone Marex, 29 West 22nd St., New York. Creme Tokalon Roseated and the other products mentioned can be obtained absolutely fresh and guaranteed pure from T. J. Evans, C. A. Bricker and R. F. Collins, or most any good druggist or department store in this city.

More Rheumatism Than Ever Before

Clergymen, Lawyers, Brokers, Mechanics and Merchants Stricken.

Our old friend Rheumatism is having his inning this year, and a few words of caution from one who knows all about it may not be amiss.

Wear rubbers in damp weather; keep your feet dry; drink plenty of lemonade and avoid strong alcoholic drinks.

If rheumatism gets you or scalds, and you have sharp twinges gnawing pain and swollen joints or muscles, you can get rid of all agony in just a few days by taking one-half teaspoonful of Rheuma once a day.

All Druggists know about Rheuma; it's harmless, yet powerful, cheap, yet sure, and a 50-cent bottle will last a long time. Ask T. J. Evans or any druggist.

PAY ATTENTION TO THAT LITTLE BALD SPOT

Here's good news at last for men and women whose hair is falling, who are getting bald, or prematurely gray and whose heads itch like mad. W. A. Eymann has secured the best agency for Parisian Sage, a simple, harmless hair treatment that is so certain in its tonic action on the hair and scalp and so sure of giving the limit of satisfaction, that they sell it with offer of money refunded if it does not abolish dandruff, stop itching head, and not only check excessive loss of hair but stimulate a new growth.

Parisian Sage is a delicately perfumed liquid, antiseptic and scientifically prepared, which when massaged into the scalp goes right down to the hair roots, where most hair worries begin, and furnishes the famished roots with the nourishment that is lacking to make the hair grow better and show more life and vitality.

Parisian Sage not only stimulates hair growth but beautifies it so that it is a favorite dressing of women who take pride in beautiful hair that can be easily arranged and appear much better than it really is. A large bottle is inexpensive at your favorite drug counter.

MISS LYON'S ENGAGEMENTS

Additional opportunities to win favor among the critical musical patrons of New York have come to Elsie Lyon (Miss Elsie Hirschberg) of this city according to word received by relatives here. Miss Lyon will appear before the Manhattan club on March 8; at Aeolian hall with a number of other artists on March 17; at the Mt. Vernon (N. Y.) temple on March 23 and at Carnegie hall on March 28.

Her appearance at Aeolian hall is in conjunction with Maria Zucca in a composition recital. Others who will assist in the program are Mmes. Chollet, Lee and Williams and Messrs. Maas, Dalgard and Martino.

In the Carnegie hall event, Miss Lyon was selected to sing several contralto numbers in connection with the last concert of the season of the chorus of the Schola Cantorum, Kurt Schindler, conductor. This program will feature Slav music.

A number of the singers from the "Have a Heart" company are studying with Miss Lyon, but owing to her concert engagements she has been compelled to limit the number of pupils.

LAST CONCERT OF SEASON

A real artist upon the piano in the person of a young Newark woman was discovered last night to a good audience at the High School Auditorium by the Woman's Music club, at the last concert of the season's course of six. Miss Bessie Larkin, a daughter of Mr. and Mrs. G. L. Larkin, of West Newark, who is a member of the club, had of course been heard by the members, but her part in a recital was a revelation to the general public. Her playing during the evening disclosed a touch of remarkable delicacy, a display of most skillful and accurate technique and considerable breadth of comprehension of the possibilities of tone shading and intelligent phrasing that made her performance entirely delightful. The audience soon warmed up to the young pianist and she received enthusiastic applause which surely was well deserved.

Miss Larkin is yet very young and has a native talent goes well with her youth and instantly puts her in sympathetic touch with her audience. She need never in the course of her artistic development cultivate an affectation of manner, that is disgusting in any artist no matter what his real ability. Let her retain her simplicity and ingenuousness and it will add to her really artistic equipment in after years.

Mrs. Mabel Dunn Hopkins, of Columbus, was the violinist-soloist of the evening and her numbers showed that she has a good tone, masters the intricacies of difficult fingering without undue effort and seems to possess the temperament necessary to virtuosity upon the instrument. The quantity of tone, really was not appreciated in her first numbers as she stood too far back stage, and was much more in evidence when she came farther forward so that the tone was propelled into the auditorium rather than into the wings and flies of the stage.

Mrs. Hopkins also used a mute in playing an obligato while her husband sang the old song, "Fiddle and I." The consequence was the "fiddle" a real part of the song as the very name indicates, could not be heard, especially the pizzicato passages.

Mr. Earl Hopkins sang several solos and played with his wife in a couple of selections arranged for two violins.

"SOMETIME" A NEW ONE-STEP OF COLUMBIA RECORDING

Here is a one-step with a most unusual title and melody. "Sometime." Some of the jingling joyousness of "That Old New England Town" is introduced in a manner that entirely dissipates the proverbial notion of the staidness of New England.

It is hardly necessary to mention that Prince's Band is responsible for this enlivening bit of melody, which bears the official endorsement of G. Hepburn Wilson, the renowned authority on the terpsichorean art.

Amusements

AUDITORIUM.

"Vanity."

Emmy Wehlen, who is recognized as one of the most beautifully and correctly dressed women in the world, wears gowns and wraps that display the latest modes in "Vanity," the Metro wonderplay to be shown at the Auditorium theatre today. This play by Aaron Hoffman gives the star ample opportunity to wear these "creations" and every reason for doing so, since her part in the Popular Plays and Players production is that of Phyllis Lord, a model in an exclusive establishment for fashionable women's apparel.

In this Fifth Avenue store, Miss Wehlen, as Phyllis, is called upon to display to wealthy patrons the advance styles of leading modistes. Her blonde beauty is seen to advantage in a silver brocade gown of flowing lines, the bodice heavily ornamented with sapphires and cut rhinestones. The skirt is short in front, the back having a long, graceful, silver-brocaded train. The distinguishing feature of this gown is the huge buckle of rhinestones and sapphires almost covering the decollete back of the bodice.

With this gown is worn a Cherout wrap of brocaded silver and black.

A MOTHER'S TROUBLES

A mother's unending work and devotion drains and strains her physical strength and leaves its mark in dimmed eyes and careworn expressions—she ages before her time.

Any mother who is weary and languid should start taking Scott's Emulsion of Norwegian Cod Liver Oil as a strengthening food and bracing tonic to add richness to her blood and build up her nerves before it is too late. Start Scott's Emulsion today—its fame is world-wide, it is free from alcohol.

Scott & Borne, New York, N. Y.

velvet made in cape effect and richly trimmed with fur. Broad bands of blue velvet arranged in a series of flounces form the basis of the lower part of the wrap. A huge fan of black velvet ostrich plumes is carried with this costume, which is completed by dainty hosiery of a silver-rose and slippers of silver brocade with large buckles of sapphire and cut rhinestones.

This feature is seen at the Auditorium today together with the last Episode of "The Crimson Stain Mystery," No. 16. Do not miss this feature as you will be handed a complete surprise in this last number of this wonderful feature.

Charlie Chaplin.

Manager Fenberg will offer his many patrons a treat tomorrow and has styled his program "A Comedy One" as Charlie Chaplin, the noted screen comedian, whose salary per year is larger than the President of the United States is a feature.

The Essanay have put out a five-reel feature which they call the Essanay Chaplin Revue of 1916, in which the clever comedian is seen in his most popular successes under the Essanay reign. As an added feature The Burton Holmes travelogue, again showing scenes in and around Berlin, also the Paramount-Bray Comedy Cartoons showing Colonel Hooza Liar's Famous Courtship.

"The Price of Silence."

Vivian Rich who plays opposite William Farnum in the new William Farnum production "The Price of Silence," is a new bright spot in the Fox heavens. Those who wonder where she got her rare beauty and charm must be satisfied with this: she was born in the South and educated in the North.

After graduating from a Boston school, Miss Rich began her theatrical career as a member of a stock company. Later she played on Broadway as a member of the "Country Girl" company. She made her debut in the Fox forces, as Grace, the daughter of Judge Vernon, playing opposite to William Farnum in "The Price of Silence." This role gives her an excellent opportunity to show her dramatic powers. This will be the Auditorium feature both Friday and Saturday of this week.

"Stop! Look! Listen!"

"Stop, Look, Listen," which is booked to appear at the Auditorium soon, is another of Charles Dillingham's successes. The climax of the second act is enough in itself to carry the piece. Here, to the irresistible strains of ragtime, the principals and chorus enact a burlesque in the accepted type of melodrama that sets the audience into a roar of laughter and brings the curtain down to tumultuous applause.

"The Blue Paradise."

The Messrs. Shubert announce for presentation at the Auditorium next week, "The Blue Paradise," the most phenomenal musical success in recent seasons, and the most delightful and satisfying light operatic entertainment brought forth on the American stage since "The Merry Widow." Like its famous predecessor, "The Blue Paradise" is of Viennese origin, having been first produced in the Austrian capital two years ago. Since then its popularity has spread throughout continental Europe because of the freshness and appeal of its original story and the exquisite orchestration of the tuneful numbers with which its brilliant score is replete.

ALHAMBRA.

Tonight.

Theodore Roberts, the world's famous character actor, and Lasky star, will be seen at the Alhambra tonight in the Lasky-Paramount

THEODORE ROBERTS

"THE AMERICAN CONSUL"

LASKY-PARAMOUNT

At the Alhambra.

production. "The American Consul," a thrilling political comedy drama written especially for him by the noted author, Paul West, and prepared for the screen by Harvey Thew and Thomas Geraghty.

Wednesday and Thursday.

World Pictures Brady-Made have achieved a masterly production in "The Hungry Heart," the newest release by the World Film Corporation. This superb offering, with the charming and accomplished Alice Brady as the star, will be shown on the screen at the Alhambra theatre Wednesday and Thursday.

Miss Brady in this production wears an array of the very latest gowns which will be of especial interest to the women patrons of this theatre. These gowns cost a young fortune in themselves and they were but one small portion of the expense connected with the filming of this production.

GEM.

A tale of mother love and a great sacrifice is that depicted by "Her Husband's Wife." A woman, her heart filled with a strange passion, deserts her husband and child and flees to another country with a sculptor. Here she meets and marries another to whom she also proves untrue and whom she subsequently divorces. Her child of whom she has no tidings through all these years has become a famous violinist and comes to the city where her mother lives.

At the Gem tomorrow.

Likes New Location.
Fred Metz, former of this city, who has been located in Coshocton for a number of years but who lately went to Akron where he engaged in the real estate business, was a visitor in the city last evening. He is greatly pleased with the Rubber City and has started to establish a splendid realty business.

Mrs. Watkins Improves.
Mrs. Amanda J. Watkins, wife of Adjutant James G. Watkins, of the Salvation Army, who was severely burned in a coal gas explosion some days ago, was taken to T. A. Bazler's ambulance from the Sanitarium to her home, 74 South Second street.

Is Fined \$5.
August Peurriegel was fined \$5 and costs for discharging firearms within the city limits. The son was fined \$5 and costs for drunkenness. Eliza Scott Class.

The Eliza Scott Sunday school class of the First M. E. church will hold its regular monthly meeting in the church parlors Wednesday at 2:30.

No Wednesday Service.
The Wednesday evening service will be omitted this week in Trinity church. The confirmation class will be held in the parish house on Thursday evening at 7:30. Rev. L. P. Franklin has been called to an important meeting of the Cathedral Chapter to be held in Cincinnati on that day and this will necessitate his absence from the city.

Returns to Work.
Miss Eva Bucy, bookkeeper at Stewart Brothers & Alward Company's store, who left the hospital a few days ago has recovered sufficiently to be able to return to work.

Isabelle Miller Union.
The Isabelle Miller Union of the W. C. T. U. will meet at the home of Mrs. Jennie Mitchell, 365 Central avenue, Wednesday afternoon at 2:00 o'clock.

Birth Announcement.
Mr. and Mrs. Frank Kelly of 24 Elveth street announce the birth of a son, Robert Franklin Kelley on March 12.

Illness of Sister.
Mrs. Frank Stine of Roseville, and Mrs. Lee Parshall of Zanesville were called to Newark Sunday by the illness of their sister, Mrs. Charles Plumb of Henderson avenue.

Recovering From Operation.
Mrs. Ralph Hass, who has been recovering from an operation at the home of her sister, Mrs. Frank Toothaker, was taken to her home near Utica Sunday afternoon.

Make Donation.
The Ladies Aid Society of the M. E. church of Jacksonville sent a very generous and much appreciated donation of two dozen patients' gowns to the Newark City Hospital on Saturday.

Rotary Club Meeting.
At today's session of the Rotary club Mr. Carl Dayton gave an interesting talk on the manufacture of glass and Mr. Charles Lock of Zanesville attired as Uncle Sam, sang a number of patriotic songs in a delightful way.

Beckford Is Arrested.
John Beckford, charged with shooting at William Hupp at the corner of Cedar and Clarendon streets Sunday, was arrested and his hearing postponed until tomorrow morning.

Catholic Ladies of Columbia.
There will be a regular meeting of the Catholic Ladies of Columbia on Wednesday evening at 7:30 o'clock at the Knights of Columbus hall.

Youthful Forger.
Police are looking for a youthful forger, a lad about 14 years old, who has passed checks for small amounts such as \$1 and \$2 in several groceries.

Visiting Brother-in-law.
C. A. Aaron of Cleveland, proprietor of one of the largest automobile accessories in the Forest City, was a visitor in the city yesterday and today, guest of his brother-in-law, Manager Geo. Fenberg of the Auditorium theatre. The Cleveland is a hustler after business and will erect one of the largest auto garages in the state during the coming year. He is also the inventor of several auto parts which brings him in a handsome royalty.

Treat For Inmates.
Members of the Coshocton Lodge of Elks who participated in the minstrel entertainment of that order a few weeks ago, last Sunday journeyed to the county infirmary and treated the inmates by reproducing a part of the show. It is said to have been a great success and thoroughly enjoyed by everyone and most of all by the participants, all of whom were treated to an excellent six o'clock dinner.

AMERICAN AVIATOR IS DECORATED BY FRANCE FOR BRAVERY IN ACTION

(ASSOCIATED PRESS TELEGRAM)
Paris, March 13.—The American aviator Sergeant Major Raoul Lufbery has been decorated with the Cross of the Legion of Honor. The announcement gives the following reasons:
"Enlisted under French flag for the duration of the war, has given proof as aviator of remarkable boldness and has brought down up to December, 1916, six enemy machines, has already been twice mentioned in army orders and decorated with the military medal."
The Cross of the Legion of Honor is only conferred on men in the ranks for exceptionally distinguished service.

Sergeant Lufbery spent his early years in New Haven, Conn. His parents died when he was very young and he was adopted by a family at Bourges, France. At 13 he ran away and wandered all over the world, turning his hand to many trades. In Asia he met the aviator Marc Pourpe, who trained him as his assistant.

Lufbery discovered for the first time that he was an American when he attempted to enlist with Pourpe at the outbreak of the war and was rejected on account of his nationality. He was finally permitted to go to the front as Pourpe's mechanic. The aviator was killed shortly afterward and Lufbery swore to avenge him. He implored the French authorities for permission to be trained as a pilot and his request was finally granted. His first three German machines were brought down within 10 days. Since the date mentioned in the Legion of Honor certificate Sergeant Lufbery has destroyed a seventh German machine as reported in a dispatch from Paris on February 9.

BRITISH REMOVE U. S. MAILS FROM AMERICAN SHIP

(ASSOCIATED PRESS TELEGRAM)
New York, March 13.—Mail carried on an American ship, the Standard Oil tanker John D. Archbold, was removed by the British authorities at Halifax, according to the officers of the vessel which arrived here today from Bergen, Norway.

This is said to be the first time that a ship flying the American flag on the Atlantic has been denied the privilege of transporting mail from a foreign country either neutral or belligerent.

The John D. Archbold took out of Bergen 39 sacks of mail from Norway, Denmark and Sweden. The vessel followed the custom of other neutral ships by putting in at Halifax instead of Kirkwall. There she was detained three days, according to the officers and all the mail taken off for examination. The tanker resumed her voyage without it. Since the German submarine blockade began no mails have reached here on Scandinavian or Dutch ships. The Bergenstorf and Christianiaford, the only two Scandinavian passenger liners to risk the voyage since February 1, sailed without passengers, cargoes and mails.

PRESIDENT WILSON IMPROVING THOUGH HE KEEPS INDOORS

(ASSOCIATED PRESS TELEGRAM)
Washington, March 13.—President Wilson remained indoors today because of the cold from which he suffered for the past week, but it was said at the White House that his condition was steadily improving. The usual Tuesday cabinet meeting was postponed.

FRENCH TAKE POSITIONS

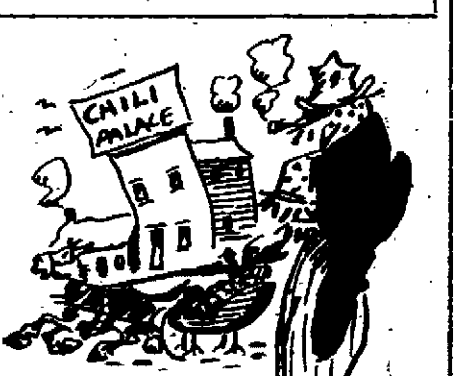

(ASSOCIATED PRESS TELEGRAM)
New York, March 13.—Fighting between the French and Germans continues brisk on the Champagne front. Paris last night reported regaining all trenches commanding Hill No. 185 in the region of Malson de Champagne. Today's French statement announces the complete repulse of the German counter attack here. Berlin's account of yesterday's fighting unadmits recapture of these positions.

MICHIGAN POTATOES WILL BE SOLD HERE AT \$1.65 A BUSHEL

Columbus, March 13.—According to a notice received yesterday from J. K. Kerr, Lansing, Mich., routing agent for the Michigan Growers' Association, potatoes will be shipped into Ohio, Indiana and Illinois to be sold direct to the customer at \$1.65 a bushel of 60 pounds. Not more than 10 bushels will be allowed to each person. They will be put up in 2 1/2 bushel bags. Local retailers are now asking from \$3.00 to \$3.25 a bushel.

With every car navy beans, put up in 10 pound bags, to retail at 70 cents, will be sent.
"It is the intention of the Michigan Growers' Association," says Mr. Kerr, "to force commission men, who have stored potatoes, bought at 75 cents and \$1.00 a bushel, to sell them at reasonable prices. We have 300 cars for immediate shipment."

Abe Martin.

U BOATS WORKING IN OUR WATERS

How German Submarines Might Obtain Initiative.

WOULD OPERATE ON COASTS

Plans Were Probably Perfected and Bases Prepared Before Break in Diplomatic Relations, Says Naval Expert. Mine Fields Along German Coast Might Prevent Their Return.

The German military mind looks far into the future, and her military movements are made with deliberation. She strikes when she is ready. Despite much loose talk to the contrary, the proclamation of the present ruthless submarine campaign was not an act inspired by sudden anger, madness or despair. On the contrary, it was the public announcement of a deliberate military movement, long prepared, carefully thought out and launched only when the grand general staff considered that the means were ample and the time propitious to secure complete success, says "Nauticus," a well known naval expert, in the New York Tribune.

Value of the Initiative.
The German military mind looks far ahead, and nothing that can be covered by careful planning is ever left to chance; hence when Germany took the step which she believed might tend to drag us into the war we may be sure that she had formulated plans by which she could obtain the initiative and carry the war at the very outset into American waters. This she can do only by sea raid and submarine, as her great fleet is locked up in her harbors.

In the large submarine fleet which Germany has been building up with feverish haste she possesses a weapon which, provided the necessary bases could be established, would be as effective against shipping in American waters as it is in the North sea and off the coast of Great Britain and France. And herein lies the sinister significance of the recent visit of U boat 68 to Newport. If a single boat could make the trip of 4,000 miles, bag half a dozen ships and return without mishap what could not a few flotillas of these craft accomplish if German sympathizers established secret bases for them in the West Indies, on the coast of a friendly Mexico, or even, during the summer months, on the unfrequented coast of Labrador?

Mine Fields May Prevent Return.
Moreover, it is entirely possible that the elaborate mine fields with which Great Britain has surrounded the exits from German harbors may prevent the return of many of the large seagoing submarines which form the latest addition to the German fleet. If so, they will be forced to transfer their base from the old to the new world.

It would be a gigantic task to inclose the German coasts with a mine field so closely sown as to form a screen impenetrable by the U boats. But there is an impression among many of the officers in our own submarine service that this is what the British navy seeks to do.
The task would be favored by the shallowness of the North sea, particularly as the German coast is approached. In the northern part the depth varies from thirty to seventy-five fathoms, but in the latitude of Germany it is from fifteen to twenty-five fathoms. Now, ninety to 150 feet is a depth that would lend itself admirably to the placing of nets. These are the depths which prevail in the strait of Dover, and here netting has proved an insuperable barrier to the German submarines.

German Bases on This Side Needed.
A leading French naval officer has gone on record as believing that the latest German submarines are of 1,500 to 2,000 tons displacement. Such boats, if they could establish bases for replenishment of fuel and supplies on this side of the Atlantic, would be favorably placed both for attack on American shipping in American waters and on allied shipping within the recently established submarine zone.

In view of this threat—and it is a very real one—it should be the part of the United States navy to establish a most thorough patrol not only of our own waters, but of the Mexican coast and of the islands of the Caribbean. To do this effectively will call for a vast auxiliary fleet to supplement the work of the destroyers, scouts and cruisers of the navy.

Who Owns That Dog?
In a court case in Duluth, Minn., over the ownership of a dog Barney Madden said the dog belonged to him and was named Ena, while Mrs. Kathryn Maloney claimed the dog and that his name was Gyp. The dog answered readily when he was called Ena by Mr. Madden or Gyp by Mrs. Maloney. After the trial had gone four days and cost the city \$601 the jury debated six hours and then disagreed.

A Junction City Youngster.
Although he is just eighty-two years of age, T. M. Templeton is city treasurer of Junction City, Kan. In addition, he runs a real estate and insurance office. He is in his office at 8 o'clock in the morning and remains until 6 each evening. Mr. Templeton drives his own automobile, which he learned to run after he was eighty.

A fire in an Ohio grain elevator burned for more than a year.

EVERYONE LIKES THIS COLD CURE

"Pape's Cold Compound" Ends a Cold or Grippe in a Few Hours.

Your cold will break and all grippe misery end after taking a dose of "Pape's Cold Compound" every two hours until three doses are taken.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharges or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and snuffling! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Accept no substitute.

NEIGHBORHOOD PRAYER MEETINGS

The following list comprises the divisions of the city, their boundaries and division leaders for the neighborhood prayer meetings up to date:

- Division 2—W. of Cedar not inclusive to River and north of Indiana street, inclusive to corporation line. Leader, Mrs. W. J. Allen.

- A. North of Columbia—Leader, Mrs. E. J. Grant.
- B. South of Columbia—Leader, Mrs. J. W. Shannon.

Every Contributor to Fund for City Hospital Entitled to Vote in Its Management

At the annual meeting of the board of trustees on board of managers of the City Hospital last week, reports of the secretary and treasurer were submitted. These reports are herewith presented in full:

Report of Secretary.
The Board of Managers of the City Hospital has held twenty-four regular meetings, one with the medical staff and two with the trustees, a total of twenty-seven.

The Board is divided into four standing committees, viz: finance, training, schools, equipment and house. who report at regular meetings. On the pay roll of the hospital are twenty persons. These are superintendent, nurses, cooks, maids, janitor and orderly. Special nurses and women to clean are hired as required.

Superintendent is Miss Evelyn Bietsch, who has been in charge for the past sixteen months. Miss Bietsch is a graduate of the Episcopal Hospital Training School of Philadelphia, received the degree of B. S. from Columbia University, and also a diploma of administration of School of Nurses. She is experienced and efficient and the Hospital Management are to be congratulated on being able to fill the place of superintendent so ably.

Miss Gertrude Fowler is beginning her second year as bookkeeper and is most capable.

In the training school are eight pupil nurses. Young ladies desiring to take training for nursing will find every facility offered in the City Hospital.

It has been the effort of the managers this year to bring the Hospital up to the requirements of the state medical board, that the graduates of the institution may be registered and be fitted for their work, as well as any nurse of a larger and older institution.

This plan has necessitated a great expense in equipment. The state board requires a laboratory fully equipped for examination and research and for practice in dietetics. A maternity ward, a children's ward and at least four of the number of nurses as the daily average of patients.

The laboratory is now equipped and is located in the North-West corner of the basement, and is up-to-date in every particular. The maternity ward is now complete. The children's ward has just been furnished and is located in one of the cheerful sun rooms. Great discrimination is used in accepting applicants for training school. Said applicants must be of good moral character, have at least one year of high school work and be physically fit.

In May, 1916, the fourth class was graduated. The past year's difficulties have been the same that have beset all institutions, as well as the private homes, viz, the great rise in price of the commodities. In December alone, 4374 meals were served.

Unlike other public institutions, a hospital has to meet drug bills, as well as food bills. Since the war, the price of drugs has advanced 500 per cent, on an average, and of foods 129 per cent. A year ago in this report we asked for criticism and suggestions from the public. The former has come more rapidly than the latter. One criticism I desire to answer. It has come to our ears that some of the share holders (those giving \$10.00 and more) have no voice in the management of this institution. The annual meeting is advertised in the papers, the

share holders are asked to come and vote.

The ballot for trustees and managers is made out by a committee of citizens, five in number, is printed in our papers a month in advance of annual meeting. The Newark City Hospital should be the pride of its citizens, and all share holders should attend these annual meetings, hear the reports and exercise their right to vote for its management.

It has even been said, we do not care for the poor; I can only say this is quite untrue—no one is turned away.

This institution is not in business as are private concerns to benefit an individual, or company of individuals, but to render to the suffering the greatest possible service.

A number of donations have been made during the year by friends of the hospital and the management is most grateful and appreciative. The hospital auxiliary has made and contributed many articles this year. Its president is Mrs. Walter Scott.

The Twentieth Century Club has been untiring in its zeal for the nursery and has assisted in furnishing the laboratory also. Two needle clubs, The King's Daughters and one church of the city have contributed garments and linens ready for service and some have given cash, fruit, linens and one of the club class a number of Bibay shoes. The boards of trustees and managers desire to thank the donors, and well-wishers to the hospital and say that they still welcome suggestions for greater efficiency and beg your loyalty and support for the coming year.

Respectfully submitted,
JESSIE H. WINDLE,
Secretary.

Treasurer's Report.
The Lady Board of Managers respectfully submit you a statement of the receipts and expenses of the Hospital from January 1, 1916, to December 31, 1916, as follows:

No, Mande, dear; it wouldn't be necessary for you to wear a dressing gown in making a salad.

BAD COLD? TAKE "CASCARETS" FOR BOWELS TONIGHT

They're Fine! Liven Your Liver and Bowels and Clear Your Head.

No Headache, Sour Stomach, Bad Cold or Constipation by Morning.

Get a 10-cent box. Colds—whether in the head or any part of the body—are quickly overcome by urging the liver to action and keeping the bowels free of poison. Take Cascarets tonight and you will wake up with a clear head and your cold will be gone. Cascarets work while you sleep; they cleanse and regulate the stomach, remove the sour, undigested food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels.

Remember the quickest way to get rid of colds is one or two Cascarets at night to cleanse the system. Get a 10-cent box at any drug store. Don't forget the children. They relish this Candy Cathartic and it is often all that is needed to drive a cold from their little system.

MEMBERSHIP CONTEST WILL CLOSE TONIGHT

The contest between two teams of the membership and finance committee of the Chamber of Commerce, which began January 19, will close tonight when the two workers who have obtained the most points will be selected to accompany Manager Mosser to Dayton, April 26 and 27, where the first convention of the Ohio Commercial Secretaries Association will be held.

There is keen rivalry between the teams captained by J. R. Speck and J. W. Horner as the losers will entertain the winners at a dinner. Thus far fifteen memberships have been brought in since this contest began, or a total of 55 since the committee began work, September 1. In addition the workers are calling on delinquent members and urging them to pay their dues and have their names inserted in the "Who's Who" directory of the Chamber's Blue Book, which will be issued after April 15, the close of the first year. At the Dayton convention Manager Mosser will speak on "The Organization of Commercial Bodies." Assistant Secretary E. W. Mentel, Dayton, will speak on "Industrial Development in the Smaller Cities," and Secretary H. S. Serkovich of Cincinnati on "Retail Trade Stimulation." Henry M. Waite, Dayton's city manager of Dayton, will speak Thursday night at a dinner of the secretaries at the Miami Hotel, and they will be given a luncheon and sightseeing trip through the National Cash Register plant, Friday.

25 Years Ago

(Advocate, March 13, 1892.)
Asa J. Allison and Miss Emma J. Simpson, who reside three and a half miles east of the city, were married Tuesday evening.

Tonight will be the theatrical event of the season at the Music Hall, when Marie Hubert Frohman will present the Witch. Satin souvenir programs will be given to all the ladies present.

Mrs. R. P. Hall and Miss Wolf of Mt. Vernon were the guests of F. H. Keenen on Saturday. While here they purchased a new piano of Mr. Keenen.

Dr. C. H. Stimpson and wife leaving today for New Orleans.

The music loving people of Newark are certainly to be congratulated on having an opportunity to hear the renowned Hungarian violin virtuoso Bernhard Listeman next month.

Bert Kellenberger, of Garrett, Ind. who has been visiting his parents, returned home today.

15 YEARS AGO TODAY.
(Advocate, March 13, 1902.)
Miss Mary C. Moul gave a delightful dinner party Thursday in honor of Mrs. Foster of Iowa. The guests were Miss Ella More, Miss Darling-ton, Mrs. H. C. Cordray, Miss Grace Colville, and Mrs. J. A. Beattie.

Born to Prof. John L. Williams and wife, a daughter, at Morgan Park, Ill. Mrs. Williams was formerly Miss Cora Beard of this city.

Miss Winifred Finegan who has been bookkeeper for John McKenna for several years has accepted a position with C. L. Sturgeon.

Miss Laura Hull, after spending the winter with friends in Newark, left last evening for her home in Muscatine, Iowa.

The Ladies Home and Foreign Missionary Society of the Plymouth church met with Mrs. Dan Jones E. Jones this week.

Ruth Davis is quite seriously ill at the home of her aunt, Miss Martha Price.

Auditor A. R. Pitzer is confined to his home with illness.

DEATH ENDS DOMESTIC TROUBLES OF CLARKS
Bladensburg, O., March 13.—Mrs. Isabel Clark, who died Friday afternoon at her home near the Knox-Coshooton line, was buried at East Union Sunday. The funeral services were conducted by the Rev. Joseph Myers. Mrs. Clark is survived by her husband, Samuel Clark, and several children by a former marriage. Her name previous to her marriage with Mr. Clark, was Totman. Death was due to paralysis.

The husband and wife had been estranged since the time Clark figured as victim in the locally famous tar and feather case, and she had brought suit in the Knox court to permit Clark to visit her during her last illness and that they requested him to remain away from the funeral services.

THE CIVIC BUREAU WILL CONFER ON CHAUTAUQUA
The civic bureau committee of the Chamber of Commerce will meet with representatives of other bodies and individuals who are interested in the 1917 Chautauqua at chamber headquarters, Thursday, at 2 p. m. The Chamber of Commerce is acting as guarantor of this year's Chautauqua and one of the managers from the Columbus office of the Redpath Lyceum bureau will attend the conference. It is the intention to make the coming gathering an even greater success than the one held last year. Chairman J. N. Pugh invites any person interested to attend the conference.

The World War a Year Ago Today—March 13.
German attack at Verdun shifted north of the fortress.
Germany's captures to date at Verdun were 26,000 prisoners, 41 cannon and 232 machine guns.

Two Years Ago Today.
Germany reported that French used an informal grenade in the Argonne battles; also explosive and incendiary bullets.

What Easter Brings

No need to wait longer for further advice from the men and women who mould the modes. The styles are determined finally and irrevocably.

You may judge of 1917's Easter style ideals by the splendid specimens to be found in our stock.

Here you will observe fashionable new adaptations of design and trimming; ingenious and luxurious new fabrics in a wealth of colorings that challenges the resources of Nature herself.

We know you're interested in pretty things—then why not come in and view these distinctive new garments, tomorrow?

The Suits \$10.95 to \$35.00
The Coats \$ 5.95 to \$29.95

Sanitarium Grateful.

Editor Advocate:

The Newark Sanitarium management wishes to extend gratitude to numerous friends who have taken an active interest in our recent difficulties. The telephones have been kept busy by kind friends and ex-patients assuring us of their sympathy and best wishes and many of them have volunteered to pray for us and our interrupted work. We would be very ungrateful indeed did we not feel touched by this manifestation and we take this means of reaching them with the assurance that their interest is greatly appreciated.

We wish especially to mention those physicians who by their aid and continual help have made our brief interment more pleasant and safe. We have taken the liberty to ask Almighty God to remember kindly their labor of love for us and the promise is "inasmuch as ye have done it unto the least of these ye have done it unto Me."

The patients who have been caught in the quarantine have been forebearing and patient and we have appreciated their attitude and regret the inconvenience to which they were unavoidably put.

And the health department has treated us with every consideration and courtesy. We could not ask for better treatment than both Dr. Knauss and the state official accorded us.

We wish to extend our thanks to the city papers for their statements of facts without sensational display.

D. J. KENNEDY,
J. D. MONTGOMERY.

SHE NOW ENJOYS REAL SOLID FOOD

ZANESVILLE GIRL THANKS TAN-LAC FOR BUILDING UP SYSTEM

WORK COMES EASIER NOW

"Tanlac helped me right from the start," said Miss Edith Keney, who lives at 67 S. Third street, Zanesville, O., and has many friends who have been noticing how well she is looking. Miss Keney said: "My food did not agree with me. If I drank coffee or ate meat or potatoes I was sure to feel sick for the rest of the day. The odor of cooking food and the heat of the kitchen made me so faint at times that I had to hold on to a table or chair."

"I was restless and could not sleep and when I got up in the morning I would be all tired out. Many a morning I didn't know whether to start to work or stay at home."

"One day when I was feeling especially bad I bought a bottle of Tanlac. It helped me right from the start. My appetite gradually came back and the food began to agree with me."

"I have been taking Tanlac only a short time and my stomach never bothers me any more. I can drink coffee or eat meat and potatoes without any bad after effects. I sleep well every night, too."

"I think that anyone who feels as I felt ought to try Tanlac."

If you are not feeling right, get Tanlac at W. A. Erman & Son's Cut Rate Drug Store.
